NEW YORK

FRIDAY MORNING,

VOL. XXXVIII. OCTOBER 3, 1919.

WHITE HOUSE BULLETIN SAYS WILSON VERY SICK MAN.

Treaty Foes Defeated in First Test of Strength in Senate.

CHANGES IN TREATY FAIL.

Fall Amendments
Snowed Under.

Seventeen Republicans Join
Democrats in Opposing
Emasculation.

Thirty-six of Forty-five Tex-
ual Revisions to Knife
League are Lost.

BY A. P. MIGHT WIRE.

WASHINGTON, Oct. 2.—At last
the stage of action in the
debate on the peace treaty,
which has been going on for
nearly a month, was reached
today. Thirty-six of the forty-
five amendments which had
been introduced into the docu-
ment by the Foreign Relations
Committee.

The smallest majority recorded
against any of the committee's
proposals was fifteen, and the largest
majority against any of the amend-
ments was twenty-eight. All of the amend-
ments considered had been intro-
duced by Senator Fall, Republican,
of New Mexico, and were designed
to limit American participation in
European settlements resulting from
the war.

If the nine amendments yet to be
considered are passed, the League
will be emasculated. The amend-
ments, which were introduced by
Senator Fall, propose to equalize
the power in the League of Na-
tions and one would limit American
participation in the reparations
debate. In the absence of a
majority agreement for disposition
of the amendments, the debate
will continue for several days before
the Senate will vote on the treaty.
The amendments presented a solid front
against the League of Nations, and
were supported by the Republicans
of the Senate. The amendments
were designed to limit American
participation in the League of Na-
tions, and were designed to limit
American participation in the League
of Nations.

THREAT ADVOCATES RELATED.
The amendments to the treaty ad-
vocated by the League of Nations
were related to the amendments
introduced by Senator Fall. The
amendments were designed to limit
American participation in the League
of Nations, and were designed to
limit American participation in the
League of Nations.

GALLERIES APPLAUD.
During the debate the rule
was suspended for the purpose of
allowing the galleries to applaud.

(Continued on Third Page.)

THE DAY'S NEWS SUMMED UP

NEW YORK. Partly cloudy. Wind at
times to five miles. Temperature
highest, 69 deg.; lowest, 58 deg.
Forecast: For Los Angeles, a
partly cloudy day with a light
breeze from the west. For com-
plete weather data see last page of
this section.

NEW YORK. Southland is em-
phatically in approval of League of Na-
tions. Senator Johnson, arriving
today to attack the pact, will find
the whole community arrayed
against him.

Two women were arrested here in
connection with the McNutt murder
case.

Banker route quartette of
Los Angeles and Los Angeles agreed
to meet at the hotel. The quartette
consisted of: Mrs. J. P. Morgan, Jr.,
Mrs. J. P. Morgan, Jr., Mrs. J. P. Morgan,
and Mrs. J. P. Morgan.

At Westminster Hotel ex-
posed and blew large hole in lobby.
Damage, \$15,000; guests
injured.

Over flood control channel
between Los Angeles and Los Angeles
agreed to meet at the hotel. The
channel was built by the Los Angeles
Water Works and Power Department.

Foreign corporation head told local
bankers that inadequate
protection for the bank's funds
was the cause of the bank's
loss of \$1,000,000.

NEW YORK. Herbert Hoover
will return to the United States
after his tour of Europe. He will
be accompanied by his wife and
children.

NEW YORK. Herbert Hoover

JOHNSON EXPECTED FALL'S TURN DOWN.

BY A. P. MIGHT WIRE.
SAN FRANCISCO, Oct. 2.—
Senator Johnson, in com-
menting here today on the
voting down of three of Sen-
ator Fall's amendments to the
peace treaty by the Senate
today, said:

"It was a foregone conclu-
sion that the Fall amend-
ments would be rejected. I
expected their defeat by a 2
to 1 vote."

LEAGUE TO CUT ARMY EXPENSE, SAYS BAKER.

SECRETARY OF WAR SEES ONLY
ALTERNATIVE IN ARMING
TO THE TEETH.

WASHINGTON, Oct. 2.—

Secretary of War Baker has author-
ized the War Bureau of the
League to enforce peace to publish
the following statement of his views
as to the effect of the League of Na-
tions on the military policy of the United
States:

By Newton D. Baker.

I believe that if the League
of Nations is approved and goes
into operation it will be easily
possible for us to speedily dimin-
ish the size of our own military
establishment—decrease the size
of the army and stop spending
money, in part at least, for
these great military outlays.
Enough force would be ap-
portioned by agreement among the
nations of the world to keep the
peace and prevent aggression by
barbarians.

But if this League does not go
through, what can we do? The
size of the armament which every
great nation will have to un-
dertake!

Personally, I believe that we
would go back into the condition
which obtained in Europe at the
time this war was declared; we
will have to go way beyond what
Germany and France did in
three days.

We will have to arm to the
teeth, because the failure of this
League as a means of justice
among nations will necessitate
each nation being armed strong
enough to keep itself protect-
ed from any combination of ag-
gressors which may be formed
against it.

GOVERNOR PROCLAIMS SCHOOL "THRIFT DAY."

BY A. P. MIGHT WIRE.

SACRAMENTO, Oct. 2.—Re-
sponding to requests for the Fed-
eral authorities, Gov. Stephens to-
night issued a proclamation ask-
ing that tomorrow, October 3, be
observed as Thrift Registration Day
in the schools of the State.

"To make appeal to the people to
practice thrift, through saving, and
investment in good government
securities, such as Thrift War
Savings Stamps and Treasury
certificates. Self-restraint and per-
sonal economy can aid materially in
solving the great problem of cost
of living. I heartily commend this
movement and ask that the people
of California give active and effec-
tive response."

Senator Johnson addresses 1000
San Francisco women at a luncheon,
explaining his opposition to the
League of Nations.

WASHINGTON. Anti-Saloon
League will fight lifting of ban on
liquor, claiming it is illegal until
peace treaty has been ratified.

White House bulletin issued at
10 p.m. reports President Wilson
a "very sick man" and "his condi-
tion less favorable." Five doctors
called in consultation.

Unless Los Angeles quickly offers
the additional \$150,000 needed for
sewerage, the Navy Depart-
ment will not consider the city's
petition.

King Albert's visit to California
will include both three stops, Los An-
geles, San Francisco and Yosemite
Park.

GENERAL EASTERN. John S.
Drum of San Francisco is elected
first vice-president of the Ameri-
can Bankers' Association.

FOREIGN. Another landing of
United States marines at Trau or
Spalato is feared. Armed Italian
forces expected to try to re-enter
Adriatic ports.

Long-expected offensive against
Petrograd is begun by Russian
northern army. Several villages
captured. British and American
troops in drive.

French Chamber of Deputies ratifies
the peace treaty by a vote of
372 to 55.

British railway men agree to re-
turn to work pending further nego-
tiations. Lloyd George refuses to con-
vener Parliament at behest of Labor
party leaders.

GARY WILL HOLD FAST

Refuses to Yield to
Union Leaders.

Tells Senators that to Confer
Would Imperil the Open
Shop System.

Considers His Action Protects
Workmen Who Want to
Keep Freedom.

BY A. P. MIGHT WIRE.

WASHINGTON, Oct. 2.—Stand-
ing squarely on his assertion that
the issue in the pending strike
throughout the steel industry is the
open shop, Judge Elbert H. Gary,
chairman of the board of the United
States Steel Corporation, com-
pleted his testimony today before
the Senate Labor Committee in-
vestigating the steel controversy.

During colloquy with members,
particularly with Senator Walsh,
Democrat, Massachusetts, Judge
Gary flatly declared that he could
not now consider compromise or ar-
bitration, or meet with strikers' re-
presentatives.

The Senate by resolution approved
the committee's plan to carry its in-
vestigation to Pittsburgh and other
steel centers after hearing, to-mor-
row, William Z. Foster, secretary
of the strikers' committee, and per-
haps one or two other leaders on
that side of the controversy.

Charges of union-labor leaders
that the United States Steel Cor-
poration employed many foreigners in
order to prevent the unionizing of
its men were denied by Judge Gary.
"But you think foreigners are
responsible largely for precipitating
this strike?" asked Chairman Ken-
yon.

"Yes, but if we had known there
was a man in the country of the
kind of foreigners who are resort-
ing to violence and who, I believe,
are under the leadership of out-
raged men, we wouldn't have em-
ployed them."

Mr. Gary said that before the
contract labor law became effective
it was possible, but not probable,
that foreign labor had been im-
ported.

"If you have no unionism," Sen-
ator Kenyon asked, "who is going
to speak for the men? How can
individuals without unions present
their views?"

Judge Gary replied that as has
been frequently done, individuals
and committees of workers could
present grievances to foremen, su-
perintendents, managers or even
higher officials.

"I'd like to know what the diffi-
culty is between you and the labor
unions," Senator Jones, Democrat,
New Mexico, said.

"Unions are endeavoring to
compel employers to contract with
them," Judge Gary answered. "And
committees of workers could pre-
sent grievances to foremen, su-
perintendents, managers or even
higher officials."

"Let's settle this point right here,"
Senator Walsh said. "Will you con-
fer with any representative of or-
ganized labor today to help settle
this strike?"

"I will not," Judge Gary re-
turned.

Asked if he had any suggestion
for settlement of the strike, Judge
Gary said: "Will you confer with
any representative of organized
labor today to help settle this
strike?"

"I will not," Judge Gary re-
turned.

TWO WOMEN JAILED HERE FOR SPOKANE MURDER.

Missing Capitalist's Body Found Buried
in Field and Arrests Follow; Mc-
Donald Brothers Sought.

The finding of the body of William H. McNutt, a wealthy
real estate dealer, yesterday, buried in a field forty-five miles from
Spokane, resulted in the arrests here late last night of Miss Jewell
McDonald and Mrs. Fay Wilkinson, sisters, on telegraphic war-
rants charging them with murder. The women were arrested at
their residence, Sichel street, by Detectives Hickok and Cline, of
the detective bureau, and Detective L. E. Belger and Manager
G. P. Ross of the Burns Detective Agency.

Mr. McNutt had been missing since last July. The body was found
yesterday on his ranch north of Spokane. The hands and feet were tied
and a gunshot wound was found in his side. A brush pile had been burned
over the spot, apparently to conceal the grave. Information which led
to the discovery was furnished the Spokane Sheriff by Los Angeles de-
tectives investigating the case.

The telegraphic warrants from Spokane instructed the local police
authorities to arrest the two women and their brothers, Ted McDonald
and Will McDonald. Detectives were looking for the 'brothers of the
women late last night.

Following the release of Miss
Jewell McDonald and Will McDonald
several weeks ago in the local
court, where they had been ar-
rested on a charge of stealing Gary
McDonald's automobile, G. P. Ross,
manager of the local bureau of the
Burns Detective Agency, received in-
formation from an informant which
strongly indicated that McNutt had
been murdered.

The informant told Mr. Ross that
on June 26, 1919, McNutt was sum-
moned to an apartment-house in
Spokane, operated by Jewell Mc-
Donald.

SLAIN AND BURIED.
There, according to the police
theory, the two McDonald men and
their two sisters forced McNutt to
sign a bill of sale, turning his auto-
mobile over to them, and then
killed him. Following the murder,
it is supposed that McNutt's mur-
derers placed the body in the auto-
mobile and drove it into the country
where it was buried. After the
burial, about thirty cords of wood
were burned over the spot where
McNutt was buried to hide any evi-
dence that remained.

It was the burning of this wood
over the body of McNutt which had
been intended to hide all clues to a
murder, which betrayed the mur-
derers. Mr. Ross's informant told
him that if this burned area was
found, the body of McNutt would
be found buried under the surface
of the ground, and it was here
that he body was found.

When the two women were in-
terviewed by the police, they de-
clared that they were innocent.

UNION LEADERS RESPONSIBLE FOR OMAHA'S MOB OUTRAGES.

(EXCLUSIVE DISPATCH)

OMAHA, Oct. 2.—Systematic anti-negro agitation
undertaken by local labor unions was in part responsible for
the riots Sunday, which resulted in the lynching of a negro,
the killing of two white men, the attempted hanging of the
Mayor and the burning of the Courthouse.

While the direct excuse for mob violence was the effort
to lynch a negro arrested for an assault on a white girl, the
last of a series of such attacks, there has been an under-
current of racial feeling developing for several months, fol-
lowed by labor leaders.

REFUSE TO BE MADE UNION TOOLS.

Gradually during the war there was an influx of negro
labor, occasioned by the withdrawal of white labor for army
purposes. In three years the negro population has approxi-
mately doubled. These negroes did not lend themselves to
the purposes of labor-union leaders who have been actively
promoting a campaign which reached its climax in July when
the Central Labor Union threatened the City Commission
with a general strike unless demands of the Teamsters' Union
were granted. Generally the negroes refused to join in radical
union plans.

AGITATORS ROUSE HATRED OF BLACKS.

When the teamsters struck negro teamsters remained
at work for the most part. Negroes were not imported as
strike-breakers, however. At about this time, a negro at-
tempted to assault a white woman. Union leaders seized on
this incident and, on a Sunday afternoon, broadcasted the
city with circulars reciting the assault story and inquiring as
to how long the white men of the city proposed to let their
women be victims of imported negro strike-breakers. The
situation gave the police anxiety for several days, but on out-
break occurred.

TAR AND FEATHERS THREAT FOR BUSINESS MEN.

Since that time there have been repeated references at
union meetings to the necessity, from a union standpoint, of
discouraging the employment of negroes. When, after Sun-
day's riot, the Chamber of Commerce took steps to assist
in apprehending the leaders of the mob, union leaders are
known to have suggested that "if the Chamber of Commerce
tries to run the town maybe some one will have to be tarred
and feathered."

LEAGUE IS ONLY HOPE

Declares Failure to Ratify
will Mean Destruction of
Civilization.

Says Efforts to Defeat the
Covenant are Inspired
by Germans.

BY A. P. MIGHT WIRE.

PALO ALTO, Oct. 2.—Herbert
Hoover, in an address delivered at
Stanford University today before an
audience of faculty and students of
the university and townspeople de-
clared himself in favor of the League
of Nations.

He said the United States faced
the alternative of helping guide the
world to lasting peace or of remain-
ing aloof and encouraging the war,
social upheaval and privation, which
would cause havoc in this country
and Europe. The former Food Ad-
ministrator's speech was an appeal
to the people of the United States
to uphold the peace treaty and the
League of Nations covenant without
reservations.

A resounding welcome greeted him
as he stepped upon the stage in the
assembly hall, escorted by Chan-
cellor Jordan, President Wilbur and
others.

LEAGUE FAILURE CALAMITY.
"If the League of Nations is to
break down, we must at once pre-
pare to fight," said Mr. Hoover.
"The peace treaty cannot be car-
ried out without the league. If the
League fails the treaty also fails. If
the League fails, the world will be
left in a state of anarchy. The
League of Nations, we shall have
to surrender the only hope that Eu-
rope will not break into further wars
of race, class and combination of
forces."

"I am confident that if we attempt
to revise the treaty we shall tread
a road through European chaos. If
we attempt to keep out soldiers out of
it we will not escape fearful econ-
omic losses."

"The Allies may themselves revise
this treaty without us and then as-
semble a council of nations of their
own choice. The League of Nations
problems of Europe. It would be a
council of Europe and in the midst
of the terrible situation, considering
the debts they owe us, the material they
must have from us or starve, I
would advise the government to
therein, lest it become a League of
Nations against the Western Hemis-
phere. A peace without us means
more arms and navy for us, the old
treadmill of taxes and dangers for
us."

Pointing out the likelihood that
some European nations will again be
plunged into war with their neigh-
bors, Mr. Hoover referred to a prob-
ability of the invasion of Poland if
the treaty failed.

GERMANS WANT DISCORD.

He said:
"There are many elements in Eu-
rope which wish to see the treaty
break down and the League of Na-
tions disappear. During the last five
months our allies have been grow-
ing weaker from a military point of
view, due to the necessity of demobil-
izing their armies, while at the same
time the reactionary group in Ger-
many has been growing in strength
through the hope of yet
securing a division of the Allies. At
the time I left Europe a month ago
German militarism had already re-
established itself as a well-dis-
ciplined, well-organized army of at
least 400,000 men, largely congregated
on the Polish frontier and even
defying the government at Berlin.
Under the alarm of this danger the
Poles, in the midst of
the greatest economic misery that
a nation ever knew, have been try-
ing to create an army of 500,000 men
for their protection from the Ger-
mans on the one side and the Bol-
sheviki on the other."

(Continued on Second Page.)

PRESIDENT VICTIM OF LEAGUE OPPOSITION.

NERVE EXHAUSTION IS DUE TO
STRAIN OF WESTERN TRIP
AND ORDEAL OF WAR.

By Robert B. Armstrong.
(EXCLUSIVE DISPATCH.)
WASHINGTON, Oct. 2.—
President Wilson is suffering
from nerve exhaustion, direct-
ly due to long and unbroken de-
votion to some of the most per-
plexing problems ever faced by
an American President. Almost
four years of constant strain
has had its climax, a nerve-
breaking ordeal of physical en-
durance, in a trip covering
many thousands of miles and
all the time beset by Senator
Johnson and other opponents of
the peace treaty and the League
of Nations.

In the critical situation at
hand the President cannot get
out of touch with affairs of state
else he would be taken for a
voyage on the Mayflower and
get as near absolute rest as a
President of the United States
can get. Yet, with more
power than any ruler and
known by sight to every nook
and cranny of the land, there
is no place that the President
can go and get rest like an or-
dinary individual, and this is
one of the problems that his
physician faces.

His closest friends and offi-
cial confidants know that the
best medicine that the Presi-
dent could secure would be the
satisfactory disposition of the
peace treaty and the League
of Nations covenant by the Sen-
ate and the administration lead-
ers are doing everything pos-
sible to bring about speedy ratifi-
cation.

REED GOT DESERTS, DECLARES GOVERNOR.

OKLAHOMA EXECUTIVE RANK
ARMED GAVE SEVENTH
WHAT HE HAD COMING.

(EXCLUSIVE DISPATCH.)
OKLAHOMA CITY, Oct. 2.—
Relative to the action in rot-
ten-egging Senator Reed by the
crowd at Ardmore last night,
Gov. Robertson today made the
following statement:

"It is a matter of course, that
any man, especially one who
holds the exalted position of
United States Senator, should be
desecrated by the mob. It is not
speech. Yet the right of free
speech must not degenerate into
license and anarchy. It is the
duty of every citizen to uphold
the President of the United States
and the League of Nations.

"This is especially true in
Oklahoma, which should be 100
per cent. loyal and patriotic.
I have been at Ardmore, who
was traveling in the State, in-
sulting not only the President
but all others who differed with
him. The mob is not at all
State and all other good citi-
zens would loudly applaud such
action as I was told was taken
at Ardmore."

"Neither Senator Reed nor any
other person can come to Okla-
homa and unfairly criticize and
insult the President with im-
punity and from what I can
gather from reports of his
speeches, he got just what was
coming to him at Ardmore."

"What pains me more than
anything else in this connection
is that certain misguided Demo-
crats in the State are willing to
give him and others of his ilk
aid and comfort and an air of
respectability by attending his
speeches and defending his ac-
tions."

TULSA (Okla.) Oct. 2.—Sen-
ator Reed arrived here tonight
from Ardmore, where he was
rotten-egged from the stage
when he attempted to deliver a
speech there in opposition to
the League of Nations.

(Continued on Second Page.)

PRESIDENT IS WORSE.

Five Specialists in
Consultation.

Deep Concern Felt in Wash-
ington Over Less Favor-
able Condition.

Executive Remains in Bed
Throughout Day; Famous
Neurologist Called.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Oct. 2.—
The White House issued the
following bulletin at 10 p.m.:
"The President is a very sick
man. His condition is less fa-
vorable today and he has re-
mained in bed throughout the
day."

"After consultation with Drs.
F. X. Dercum of Philadelphia,
Sterling Ruffin and E. R. Stitt
of Washington, in which all agreed
as to his condition, it was de-
termined that absolute rest is
essential for some time."

[Signed] "GRAYSON."

Although it was stated that
there was no cause for alarm,
there was considerable concern
here tonight over the condition
of President Wilson after a con-
sultation of five physicians, in-
cluding Dr. Cary T. Grayson and
Dr. F. X. Dercum of Philadel-
phia, an eminent specialist on
nervous diseases.

The consultation began at 4
o'clock and lasted more than
two hours.

It is expected that a statement
as to the finding of the physicians
will be made to the public by Dr.
Grayson.

Dr. Grayson's bulletin, issued at
noon today, was to the effect that
the President had a fairly good
night, but his condition is not at
all good this morning. Shortly
afterwards he announced the specialists
had been summoned to consult
with the President of the United States.

DOCTORS IN ATTENDANCE.
Those attending the consultation
and making a diagnosis besides Dr.
Grayson and Dercum were Rear-Ad-
miral Edward Ruffin, chief of the
naval medical school; Dr.
John B. Dennis, director of the
naval dispensary here, and Dr.
Sterling Ruffin, who is Mrs. Wilson's
physician. Dr. George D. Schweitzer,
the Philadelphia eye specialist,
who has treated the President's
eyes since he has been in the White
House, was also summoned to
Washington.

Dr. Grayson described President
Wilson as being extremely restless
and much worse to being kept
quiet for a rest. He said that the
President was even worse to the
summing of the other physicians,
and acquiesced only after being
persuaded by argument that such
a course was essential.

The statement was made by Dr.
Grayson, the chief of the con-
sultation, who called for the pur-
pose of relieving him of pressure
as much as it was a precautionary
step. He indicated that his cir-
cumspect vigil was beginning to tell on
him.

OPERATION POSSIBLE.</

Jugo-Slav Troops Fire on a Transport Steamer Carrying Italians.

PLANS DALMATIA ATTACK.

D'Annunzio Outlines Tentative Enlargement of Campaign; Frontier Closed.

(BY CABLE AND ASSOCIATED PRESS.)

ROME, Oct. 2.—The Italian steamer Epiro, with 200 Italian troops and some American officers on board, bound for Cattaro, is declared, in a dispatch from Bari to the Tempo, to have been shot at by Jugo-Slav regular troops in the channel between Montenegro and the Adriatic promontory.

One Italian was wounded. The Epiro, the dispatch added, made off at full speed and escaped further attack.

PARIS, Oct. 2.—Dr. Milenko R. Vesitch, one of the Jugo-Slav delegates to the Peace Conference, told the Associated Press this morning he was not surprised at Capt. Gabriele d'Annunzio's declaration that he considered himself in a state of war with Jugo-Slavs.

"It is only a continuation of his cinematograph procedure," said Dr. Vesitch. "As far as the kingdom of the Serbs, Croats and Slovenes is concerned," he said, "it does not know Capt. d'Annunzio, and consequently has no reason to take notice of his declaration."

PLAN DALMATIA ATTACK.

(BY CABLE AND ASSOCIATED PRESS.)

PARIS, Tuesday, Sept. 29.—Capt. Gabriele d'Annunzio's staff is in the palace here engaged in working out military problems. They have laid plans for a surprise attack on Dalmatia, but it is said that it is not intended to carry them into execution—that they were made simply for show.

Near-Admiral Andrews, head of the American naval forces, will remain in his headquarters at Abbeville. The cruiser Pittsburgh is still at Spalato.

The Jugo-Slav frontier has been completely closed by d'Annunzio's forces.

Discipline among Italian regular soldiers is very low along the armistice line and their officers have little control over them in enforcing the blockade of Fiume.

Result Capt. Gabriele d'Annunzio's army is being constantly reinforced by deserters, whole companies and battalions marching into Fiume to join his forces.

AMERICANS AVOID WAR ACT.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 2.—Intervention by the American naval forces at Trau, Dalmatia, prevented bloodshed "which would perhaps have resulted in a state of actual war between Italy and Jugo-Slavs," according to a report from Admiral Knapp, commanding American naval forces in European waters, transmitted to the Senate today by Secretary Daniels.

American sailors were not landed, Admiral Knapp said, until after American and Italian officers who had been sent to Trau had induced the Italian raiders to withdraw after they had surprised and captured the small Serbian garrison.

One Italian officer and three men were left behind and the American bluejackets were sent ashore to protect them and police the town until Serbian troops could arrive, the admiral said.

The Americans acted, Admiral Knapp continued, at the request of the Italian admiral in command of the Dalmatian coast and the force

RUSSIAN GIRLS DIE FEARING RED LOVE.

(BY CABLE AND ASSOCIATED PRESS.)

PARIS, Wednesday, Oct. 1.—Chemist shops at Archangel are openly selling poison to many young women who are buying it with the expressed intention of killing themselves rather than fall into the hands of the Bolsheviks, according to an American officer who has just arrived from Northern Russia.

violence would be offered to civilians.

"Italian Admiral Mito, in command of ships and troops in Italian zone of occupation, sent senior Italian officer present at Spalato to U.S.S. Olympia, with thanks for sending Trau raiders back. He has brought the officer commander of the raiding force to trial by court-martial."

SENATOR SMITH ASKS SEVEN RESERVATIONS.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 2.—Opposing textual changes necessitating submission to Germany, but declaring ratification without reservations to be impossible, Senator Smith, Democrat of Georgia, in the Senate today proposed seven reservations to the peace treaty.

While only specifying seven reservations, Senator Smith said he believed "substantial modification" should be placed upon the labor provisions, but he withheld suggestions because other Senators contemplated proposing a reservation covering that provision.

Senator Smith's first reservation is a substitute for the amendment of Senator Johnson, Republican, California, designed to equalize the voting power in both the Assembly and Supreme Council under the League of Nations. The next three are similar to those reported by the Senate Foreign Relations Committee affecting the right to withdraw from the league, the Monroe Doctrine and reserving the right of this country to control its own internal affairs.

The fifth reservation covers Article X and Senator Smith said the United States could not assume obligations to preserve the territorial integrity of political independence of any other country or to engage in economic boycotts. The reservation further provides that mandates cannot be accepted for this country without Congress' approval.

As new reservations, Senator Smith proposed that the reparations commission should not interfere with commerce between the United States and Germany except with this country's consent and that all persons filling positions created by the treaty must be appointed by the President with the Senate's consent. Amendments to the league covenant also would be ratified by the Senate.

WOULD NULLIFY JOHNSON'S AMENDMENT BY A MILDER ALTERATION.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 2.—Opposing textual changes necessitating submission to Germany, but declaring ratification without reservations to be impossible, Senator Smith, Democrat of Georgia, in the Senate today proposed seven reservations to the peace treaty.

While only specifying seven reservations, Senator Smith said he believed "substantial modification" should be placed upon the labor provisions, but he withheld suggestions because other Senators contemplated proposing a reservation covering that provision.

Senator Smith's first reservation is a substitute for the amendment of Senator Johnson, Republican, California, designed to equalize the voting power in both the Assembly and Supreme Council under the League of Nations. The next three are similar to those reported by the Senate Foreign Relations Committee affecting the right to withdraw from the league, the Monroe Doctrine and reserving the right of this country to control its own internal affairs.

The fifth reservation covers Article X and Senator Smith said the United States could not assume obligations to preserve the territorial integrity of political independence of any other country or to engage in economic boycotts. The reservation further provides that mandates cannot be accepted for this country without Congress' approval.

As new reservations, Senator Smith proposed that the reparations commission should not interfere with commerce between the United States and Germany except with this country's consent and that all persons filling positions created by the treaty must be appointed by the President with the Senate's consent. Amendments to the league covenant also would be ratified by the Senate.

JOHNSON'S LUNCHEON ADDRESS.

Senator Tells Women of San Francisco Why He Is Opposing Peace Treaty and League of Nations Pact.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Oct. 2.—The text of Senator Johnson's address at the women's luncheon today, as sent out by the Associated Press, is as follows:

A sympathetic ear California has ever turned to an idealistic program and when one comes among us and speaks in the language of idealism and altruism his words fall on the comprehending and understanding. We have passed through the initial stages of what once was considered political revolution. We saw with clear vision the difference between the past and the present. We saw that the past was a party to it, and not only a party to it, but it was the signature of Woodrow Wilson which made it possible. It was his act and deed which consummated the robbery of China and the giving of Siberia to Japan.

The proud boast of America, ever since we became a nation, that we had never broken faith; that we have ever kept our pledged word is now transmuted into active participation, not only in the robbery of China, but in the giving of Siberia to Japan.

Those who justify the Shantung decision should keep the facts in mind.

First: That the President said in Paris it was "shameful."

Secondly: That he described it in Washington as "abominable and detestable."

Thirdly: That Gen. Bliss and Mr. White, members of the peace conference, in writing to the President, protested in the strongest terms against the decision.

Fourthly: That the experts of the United States on Far Eastern questions, Dr. Hornbeck and Dr. Williams of our own University of California, described the decision, and describe it yet as a gross outrage and infamous act.

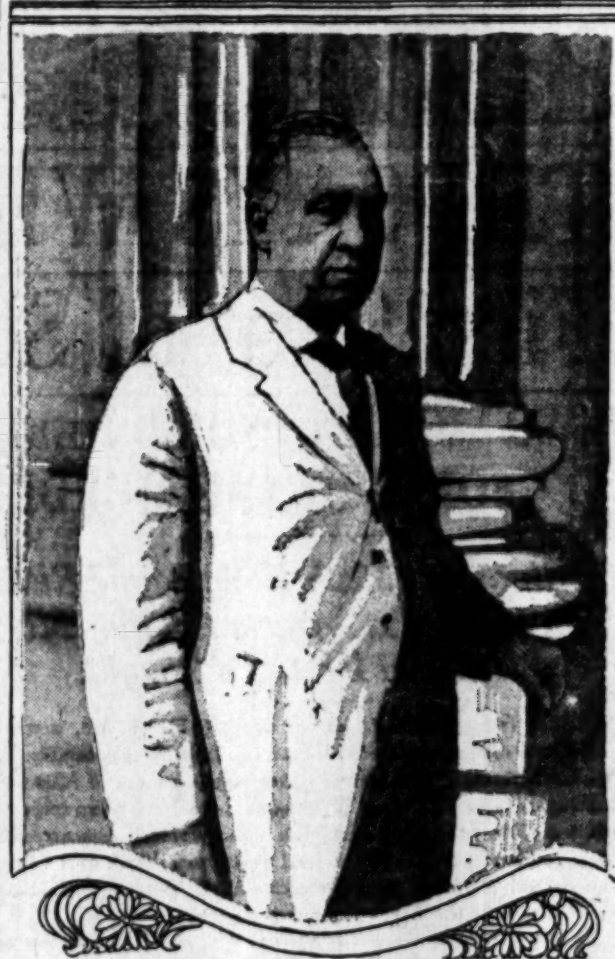

Fifthly: All those connected with the Peace Conference, save possibly the President, now unite with all the conscientious statesmen of the United States in condemnation of the wrong.

QUESTION OF REDRESS.

The President says that China can go before the League of Nations for protection and redress of the Shantung decision. He puts upon our intelligence the four great nations—Great Britain, France, Italy and Japan—bound by secret agreements to rob China, robbed her at Paris and asserted that they could not do otherwise because they had agreed to the robbery in advance.

In the league these nations are still all-powerful and when the President says to you that China may present her case to these four nations, bound by their infamous treaties, and have redress, I think he must have spoken ironically. He says that Japan will keep her promise to return the German territories in Shantung. Dr. Williams of the University of California and every other man familiar with the situation say that Japan has taken much more than the German rights

Would Nullify Johnson's Amendment.

Senator Johnson of Georgia. Who proposes seven reservations to the peace treaty, but who opposes textual changes which would necessitate submission to Germany.

HOOPER URGES LEAGUE SIGNING

(Continued from First Page.)

shewiki on the other. If the treaty is signed, the peace treaty will be reduced to 200,000 men and dispersed over Germany and their co-belligerents. The failure of the treaty means the invasion of the Polish state."

He was not impatient of honest debate; that he believed the debate on the League of Nations was going on in the United States "the building the very foundation of the League." He did not believe in the invasion of the League for not accepting out of hand the peace treaty evolved by 200 conflicting minds in Paris.

"The treaty finally agreed upon at Paris is by no means perfect," declared Mr. Hoover.

He pointed out that scores of international wrongs, which breed war, existed in the world before the peace conference convened and he predicted it would take perhaps 50 years to correct them all.

"It is often overlooked that this was not a conference to settle the wrongs of the world, but to settle the wrongs committed by allies or neutrals, but by the enemy only," said Mr. Hoover.

"No one could be more disappointed than I am by the results of the conference," he said. "It was a failure in every respect."

JOHNSON TALKS ABOUT IDEALISM

Tells San Francisco Women of California Spirit.

Says Shantung Provision in Treaty is a Blot.

Is Greeted by Large Audience at Final Address.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Oct. 2.—Senator Johnson, at a luncheon here today, told more than 1000 of San Francisco's most prominent women that the peace treaty with its Shantung provision is a blot on American honor and that the League of Nations as now constituted would make America a party to perpetuating this and other wrongs.

The women were enthusiastic. Time after time they interrupted the speaker with applause and cheers. The audience represented the women leaders in the professional, business and social life of the city.

THOUSANDS QUIT STEEL STRIKERS.

Ranks Being Rapidly Depleted by Returns.

Defections in Chicago District Growing Daily.

Gradually Regaining Normal Personnel.

(BY A. P. NIGHT WIRE.)

CHICAGO, Oct. 2.—Further defections from the ranks of steel strikers in the Chicago district were reported today, although union leaders declared a large majority of the men who have returned to work are those who have been standing firm. At the plant of the Indiana Steel Company at Gary, Ind., 1500 additional strikers are reported to have returned to work, while at Indiana Steel, Ind., about 5000 of the 7000 employees of the Inland Steel Company are said to have expressed a desire to return as soon as protection is assured. The American Steel and Wire Company at Waukegan, Ill., started today with a force of about 500 men. In the South Chicago district the steel workers are said to have about 4000 men at work. At other points with reduced forces, it is reported that the strikers are gradually regaining normal personnel.

At Gary, Ind., Jacob Great, a striker, was found severely beaten. He was taken to a hospital. The strikers are reported to be gradually regaining normal personnel. The strikers are reported to be gradually regaining normal personnel.

GIRLS JOIN STRIKERS.

PITTSBURGH, Oct. 2.—Girls worked on light machine work at the Oliver and Snyder steel mills today when they declared in open court that they would decide a case in which he, Brouillet, was appearing as counsel, in favor of the side that would give him the most votes. The case in which Brouillet was interested is that of Edward Berg-

was sentenced to serve twenty-four hours in jail. Brouillet, after the gate of the prison closed upon him, "that your decision will be on the side that you think will give you the most votes, and you can give me twenty-four hours more if you want to." Judge Brady said that twenty-four hours was the longest legal sentence he could inflict.

SHIPYARD STRIKE MAY BE ARBITRATED. BAY DISTRICT CHAMBER OF COMMERCE AGREES TO INTER-CONTROVERSY.

(BY A. P. NIGHT WIRE.) SAN FRANCISCO, Oct. 2.—A rift in the labor differences which have closed the shipyards in the San Francisco Bay region and have resulted in idleness of the longshoremen and bay and river boatmen here became apparent today when the Industrial Relations Committee of the Chamber of Commerce agreed to arbitrate these differences. It was announced that the committee was "representative of the employers."

As a result the waterfront unions called meetings of their executive committees today to consider arbitration and to arrange for any possible settlement. The committee's announcement was submitted to the San Francisco labor council, which had been endeavoring to secure arbitration.

A meeting of the Executive Committee of the Metal Trades Council and another of the council as a whole were held today to perfect plans for the 10,000 shipyard workers on strike. The council received a message from the metal trades organization in Seattle, saying the steel shipyards there had signed the new wage agreement, suspension of which caused the walkout here.

OAKLAND, Oct. 2.—There is no change in the shipyard strike situation here. None of the yards is making any attempt to operate any branch of the business. There has been no picketing nor any violence, and the union labor leaders say that the men are content to bide their time until the employers meet their terms.

At a meeting of the Boilermakers' Union last night the proposal of applying the Plumb plan to the shipyards was discussed and met with favorable reception. Nothing definite in the way of placing the proposal before the government was done.

Union leaders said today that virtually all the plants other than the shipyards, are paying the new scale and are operating with full crews. Two thousand or more men are thus employed in Oakland and vicinity.

"Life Income Free From Tax." A deposit with the AMERICAN LIFE INSURANCE COMPANY of \$500 in a ten year term will give a guaranteed annual income of \$175.00. At age 70 the annual income is \$250.00. helpful in preventing industrial disturbances of the kind everywhere in the country." Government intervention, he said, should be confined to maintaining peace and order, which, he added, was the only present need in the situation. He told the committee that he recognized concentrated capital had power to do more or less harm, and said he personally favored strict Federal control, even to licensing and commission supervision of industrial conditions, but that the present condition demanded no such remedies. Labor, likewise, he said, needed control, but the greatest controlling power, he said, lay in "enlightened public sentiment."

UNION LABOR LAWYER JAILED FOR CONTEMPT.

ACCUSES JUDGE OF PARTISANSHIP IN MAKING HIS DECISIONS.

(EXCLUSIVE DISPATCH.)

SAN FRANCISCO, Oct. 2.—Attorney A. W. Brouillet, formerly president of the Labor Council and later attorney for the State Board of Pharmacy, was sentenced to twenty-four hours in jail by Police Judge Brady today when he declared in open court that he would decide a case in which he, Brouillet, was appearing as counsel, in favor of the side that would give him the most votes. The case in which Brouillet was interested is that of Edward Berg-

was sentenced to serve twenty-four hours in jail. At a meeting of the Boilermakers' Union last night the proposal of applying the Plumb plan to the shipyards was discussed and met with favorable reception. Nothing definite in the way of placing the proposal before the government was done.

Union leaders said today that virtually all the plants other than the shipyards, are paying the new scale and are operating with full crews. Two thousand or more men are thus employed in Oakland and vicinity.

NEW TRAU LANDING SEEN.

BY HENRY WALES. [BY CABLE-EXCLUSIVE DISPATCH.]

PARIS, Oct. 2.—Unless Secretary of the Navy Daniels issues orders to the contrary American marines and sailors will be landed again to repulse Italians, if any armed Italians try to re-enter Trau or Spalato or any other Adriatic ports within the sixty-mile stretch of coast line, which the United States warships are patrolling.

Serbian sources assert the Italians have received reinforcements and are preparing another raid upon Trau, but are confident the United States marines and bluejackets will land again and drive them out. But it is believed if the Italians try to capture Trau again they will put up a fight, and the American marines may then be giving battle to Italian troops. It is announced the American

JAPAN WILL SETTLE SHANTUNG ISSUE SOON.

BARON GOTO SAYS PROMPT ACTION WILL FOLLOW TREATY RATIFICATION.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Oct. 2.—That Japan intends to settle the Shantung issue "so promptly that it is impossible to set a date" was asserted here today by Baron Shimppei Goto, former Japanese Foreign Minister and member of the Japanese diplomatic advisory council, who arrived in Washington en route from Paris to Tokyo, to pay his respects to President Wilson, the latter's illness preventing him from calling at the White House. Japan, Baron Goto said, will soon ratify the Versailles treaty, and when that is done, she will ask Germany to hand over to her all documents concerning Shantung. "Then," Baron Goto declared, "Japan will submit to China a definite and liberal proposal as to the settlement of German rights. I am confident this will be done within a few months."

The former Foreign Minister was asked to express his view of the Senate discussion on the Shantung question. He replied that his former connections with the Japanese government had been such that his remarks might be misinterpreted as an expression of official opinion. He added, however, that he "admired all publicists, whether in or out of the Senate, who have spoken frankly and straightforwardly for or against the Shantung settlement in the peace treaty."

"Because I believe that everybody is entitled to honest opinion," he continued, "I am glad that Japan has not attempted in any way to influence the opinion of the Senate on the Shantung question. I am told that various gentlemen have appeared before the Senate Committee on Foreign Relations in behalf and to plead the cause of China. I have no desire to criticize that."

Mrs. F. W. Blanchard says: "The artistry and photography in 'Broken Blossoms' is beyond compare. If there is a criticism it is that the production is too gripping; too dramatic."—Advertisement.

RETURNING STRIKERS FLOCK TO STEEL MILLS. (BY A. P. NIGHT WIRE.) CHICAGO, Oct. 2.—The steel mills today apparently made greater inroads on the ranks of the strikers than on any other day of the strike in this district. Reports indicated that about 2100 men returned to work today and mill officials were predicting operations on a basis of 60 per cent. within a few days.

Union leaders, however, while admitting that there probably had been some slight defections from their ranks, declared that such men as had returned to work were common laborers. They said the skilled workers were remaining firmly on strike and that without them the mills were virtually helpless.

Reports from Gary, Ind., stated that about 1500 strikers returned today.

SEAMAN INJURED IN FIRE IN SHIP'S HOLD. (BY A. P. NIGHT WIRE.) SAN FRANCISCO, Oct. 2.—Damage estimated at \$10,000 was done to the ship, and a member of the crew, residing in Oakland, was injured in a fire in the forward hold of the freight steamer Northland, at her dock here today. The fire was said to have been caused by the falling of a tank of bi-chloride sulphide. Roots fell through a hatch while trying to prevent the flames reaching a cargo of gasoline nearby.

Periodical Distributors Meet. (BY A. P. NIGHT WIRE.) CHICAGO, Oct. 2.—The midwest division of the Independent Distributors of magazines and newspapers of the United States and Canada was organized here today, with M. L. Annenberg of Milwaukee, president. It is proposed to organize local associations in New York, Atlanta, New Orleans, Kansas City, Omaha, Denver, Butte, Los Angeles, San Francisco, Seattle and other cities, as locals, to affiliate in a national organization.

Good Tires - Good Faith Good Business

United States Tires are the best tires that the present art of tire manufacture makes possible. That is why we advertise them as

Good Tires

It is because they are such good tires that we have been able to do away with all mileage limitations in the United States Tire guarantee.

All United States Tires—passenger car and truck—are guaranteed to be free from imperfections in materials and workmanship, with no limitation of mileage. It is a guarantee of absolute quality.

If an imperfection should develop, an adjustment is gladly made—a fair and square adjustment backed by the

Good Faith

of the United States Rubber Company, *the oldest and largest rubber organization in the world.*

The strength and dependability of United States Tires have made the adjustment problem one of minor importance to motorists who use them.

It is sound merchandising to market a good product like United States Tires on the basis of quality rather than on adjustment probabilities; that is, it is

Good Business

Eventually, we believe, all the manufacturers of better grade tires will adopt this method.

That this policy is popular is proved by the fact that the demand for United States Tires has outstripped our manufacturing capacity in spite of a constantly enlarging production.

BANKERS ELECT A CALIFORNIAN.

John S. Drum, San Francisco,
Chosen Vice-President.

National Office Carries Big
Responsibility and Work.

Palmer Urges an Increase of
Production Immediately.

[EXCLUSIVE DISPATCH.]

ST. LOUIS, Oct. 2.—John S. Drum, president of the Savings Union Trust Company of San Francisco, was elected first vice-president of the American Bankers' Association at the final session of the association's fifty-fourth annual convention here today. The California representation of almost 100 delegates, left St. Louis tonight. Mr. Drum made a brief speech of acceptance after the Nomination Committee's resolution had been unanimously endorsed, electing Richard S. Hawes, senior vice-president of the First National Bank of St. Louis, president; Mr. Drum, first vice-president; and Thomas B. McAdams, president of the Merchants National Bank, Richmond, Va., second vice-president. It is said that the duties of first vice-president of the American Bankers' Association, as in many other organizations, entail more responsibility than those of the president.

In the midst of weighty resolutions involving questions of labor, industry and finance, appeared one urging the delegates to "See America First." It was fostered by the Californians.

SPEED UP PRODUCTION.
A. Mitchell Palmer, Attorney General of the United States, in his address before the association, declared that the industry must be democratized, on a basis of full cooperation, and that greater production at less cost must be brought about.

The association, at its concluding session, adopted the report of the Committee on Commerce and Marine, which declared that, for the extension of foreign credits, "the necessary financial machinery in the form of a large, capably managed and thoroughly equipped organization with which the bankers, business men and manufacturers of this country would become identified and which might very properly be initiated and supported by the members of the American Bankers' Association, should be provided with the least possible delay."

SECTIONAL OFFICERS.
Officers elected by the national bank section of the American Bankers' Association were: President, Walter W. Head, Omaha; vice-president, Henry H. McKee, Washington; one-year membership on the Executive Committee, Alfred H. Alkin, Boston; John J. Lonsdale, St. Louis; and Theodore Wold, Minneapolis; two-year term, George A. Kennedy, San Francisco; three-year term, C. S. Colwell, Philadelphia; R. D. Sneath, Timm, O.; Thomas R. Preston, Chattanooga; and James Ringold, Denver.

Disapproval of the continuance or extension of Federal farm loans exempt from taxation was expressed in a resolution adopted by the savings bank section. The system, according to the resolution, frees from the war debt those most able to bear it.

**BUREAU HEADS HAVE
HIGHLY-PAID CLERKS.**

**ADOPTION OF BUDGET SYSTEM
IS URGED AS METHOD OF
NATIONAL ECONOMY.**

[EXCLUSIVE DISPATCH.]

WASHINGTON, Oct. 2.—The universal desire among department and bureau heads of the government to surround themselves with high-salaried clerks to fill vacancies in the lower grades of Federal employees, is one of the sources of extravagance in governmental expenditures which makes it necessary to devise, at any early date, a means of securing greater economy and efficiency in the Federal service, according to the statement of Chairman Good of the Special Budget Committee of the House at its hearing yesterday.

"The government is simply full of officials whose sole desire is to fill their respective departments and offices with high-salaried clerks without having to go to the trouble of employing assistants in the lower grades and then training them up to the higher positions," said Mr. Good. "In the pension bureau, a few years ago, Congress provided that only 25 per cent. of new vacancies should be filled, because of the decreasing duties of this bureau. The result was that the head of this bureau, whenever a sufficient number of vacancies occurred, filled them only with the higher paid clerks and eventually he had an organization composed principally of clerks whose salaries had no relation whatever to the duties which they performed."

"All through the government different salaries are being paid for exactly similar work, because the responsible official fails to guard the public money as he would his own, and naturally this causes the greatest discontent among the Federal employees. This has been especially true during the past three or four years. The institution of an efficient budget system would effectively remedy these extravagances of this sort."

An entire reorganization of the fiscal system of the government will follow adoption of a Federal budget system, Assistant Secretary of the Navy Franklin D. Roosevelt told the committee. "I believe that twenty years from now," he said, "the people of this country will look on these as the 'dark ages'."

Mrs. Isadore B. Dockweiler says: "From an artistic standpoint, 'Broken Blossoms' is the most beautiful photograph picture that has ever been put on the screen. The music is simply divine, and no detail has been omitted to make it the finest film yet produced."—[Advertisement.]

HOBBY REFUSES TO CHANGE VIEW

Texas Governor is Strong for
Mexican Intervention.

Pressure of Business Interests
Does not Budge Him.

Says He Represents Loyal
Men of Lone Star State.

BY W. D. HORNADAY.

[STAFF CORRESPONDENCE.]

AUSTIN (Tex.) Sept. 29.—Gov. Hobby has aroused much criticism on the part of the business element of Texas over his recent attacks upon the existing government of Mexico and declaration in favor of intervention by the United States in the affairs of that country. As a result of his utterances the proposed trade excursion of Mexican business men to Texas and other parts of the United States has been cancelled. The exhibit of Mexican products at the State fair at Dallas will also be withheld because of the outspoken antagonistic attitude of Gov. Hobby toward Mexico.

It is asserted by many men of business prominence in Texas that intervention is not popular with the people of this State. These men say that for the United States to send an army into Mexico would mean perhaps many long years of warfare; that it would place the towns and people of the Rio Grande border at the constant mercy of bands of Mexican guerrillas. It is pointed out that it took the Spaniards nearly three hundred years to conquer the lovely Mexican Indians and that even when this was accomplished the natives rose up and threw the French attempted to take over Mexico and failed.

HOBBY'S ATTITUDE.

In a statement discussing the action of the Mexican government in cancelling its plans for making an exhibit at the State fair at Dallas and the abandonment of the proposed trade excursion, Gov. Hobby said:

"It is better for Texas and for the State fair than the present Mexican government will not make such a display, as it is claimed it was inferior to the one at Dallas. It might, however, make a display of a good many things which would be of considerable interest in Texas."

"One of them would be a disposition to treat Americans fairly and decently. There might be an American flag bespattered with the indignities cast upon it by the Mexican government through these many years and during the war with Germany, and photographs of the hundreds of American graves which are scattered throughout that country. There might be a facsimile of the heaps of American gold which have been paid for the ransom of Americans held as prisoners."

RECALLS MASSACRES.

"There might be the drawing of a huge border, covering 2000 miles of our States' territory, through which there are frequent penetrations, with results that are distressing. There might be a tremendous canvas painting of the dead bodies at Columbus, N. M., and of the American citizens shot down at Santa Isabel, at San Ignacio and at Carrizal."

"As to the trade excursion, it might be recalled that many of these Americans who have been murdered in Mexico were there in response to the invitation of the Mexican government and under solemn promises of the government that they and their property would be given protection."

"Presumably, it was the purpose and object of the proposed excursion to invite Americans to sell goods to the Mexicans, to give them support while they are awaiting the results of the war. They have been offered concessions to settle in that country. Possibly it was in mind to invite other Americans to come and assist in the development of the resources of Mexico with further alluring promises of protection and other manifestations of a deep sarcasm."

HONOR IS FIRST

"To those who place commercialism above the honor of the American flag, who would ignore the fact that hundreds of Americans have been wantonly slain and outraged and robbed in an effort to conciliate the government which has brought few of the perpetrators of these deeds to justice, and thus to give a few blood-stained dollars, may feel keenly disappointed on account of the absence of the exhibit and the trade excursion, but I cannot consider the deficiency too great to be readily supplied with other attractions and other excursions."

**LOREE IS TO ATTEND
INDUSTRIAL SESSION.**

[BY A. P. NIGHT WEBER.]

BOSTON, Oct. 2.—The National Industrial Conference Board announced today that Leonor F. Loree of New York, president of the Delaware and Hudson Railroad, had accepted the board's invitation to serve as a delegate to the national industrial conference called by President Wilson to assemble at Washington on October 6.

This completes the group of five members of the conference appointed by the board at the President's request. The others are Frederick P. Fish, Boston; John W. O'Leary, Chicago; E. Pemberton Hutchinson, Philadelphia; and Edwin Farnham Greene of Boston.

**CONFERENCE TO FIX
STATUS OF ENEMIES.**

[BY CARLE AND ASSOCIATED PRESS.]

PARIS, Oct. 2.—The Supreme Council today considered the question of the admission of enemy and neutral delegates to the international labor conference to be held in Washington this month, and decided to grant to German and Austrian representatives facilities to reach Washington.

It will be for the labor conference itself at its first meeting to invite to its sessions enemy representatives and members who have expressed a wish to follow the work of the conference.

HOW TISZA WAS SLAIN TOLD FOR FIRST TIME.

**FORMER AUSTRIAN PREMIER
WAS ASSASSINATED IN
PRESENCE OF HIS WIFE.**

[BY CARLE—EXCLUSIVE DISPATCH.]

BUDAPEST, Sept. 27 (via Paris, Oct. 2).—A dramatic account of the death of Count Tisza, assassinated on October 20, last, was given by the then Chief of Police, Benkirsly, at an investigation into the murder now being held. Circumstances of the death until now have been a considerable mystery to the public.

The alleged motive for the murder, namely that he was responsible for the war, was interesting, in view of the publication of the Austrian red book proving by documents that Tisza alone of all the Austrian Cabinet protested to the last possible moment against the terms imposed on Serbia. He alone saw war on Serbia meant a world war.

**HAWAII LAVA STREAM
THOUSAND FEET WIDE.**

[BY CARLE AND ASSOCIATED PRESS.]

HILO (T. H.) Oct. 2.—A stream of lava 1000 feet wide is flowing into the sea at the rate of from twenty to thirty miles an hour from the crater of the volcano Mauna Loa, which first threw forth lava Saturday. The stream of lava is now a virtual river from twenty to thirty feet high. Where the lava flows into the sea, the waters are boiling for half a mile and are strewn with dead fish.

The sides of the flow are banked up by cooled lava and red-hot boulders carried in the stream explode when they hit the water. Property damage resulting from the activity of Mauna Loa has not been large although some forests and a few houses have been destroyed. The lava flow is mostly through a barren country covered by previous flows from the crater.

Several herds of cattle are reported penned in by the divergent flows. Near the source of the flow the volcano remains normal and is seemingly unaffected although great clouds of steam can be seen coming from the peak.

Volcano Kilauea, on an adjacent peak, remains unaffected by Mauna Loa's activity.

Thousands of people are going from Hilo and other points on the island to witness the flow.

**FRITZ MUST RETURN
BELGIAN SOUVENIRS.**

[BY CARLE—EXCLUSIVE DISPATCH.]

BRUSSELS, Oct. 1.—Fritz must return the souvenirs taken from Belgium. By decree of the German Ministry of Foreign Affairs published here, every German subject having objects of art, furniture, stocks or bonds, taken from Belgium, is required to turn them over to the German restitution office at Frankfurt before December 15.

Former Argentine Ruler Dies.
[BY CARLE AND ASSOCIATED PRESS.]

BUENOS AIRES (Argentina) Oct. 2.—Dr. Victorino de la Plaza, former President of Argentina, died at midnight last night.

The soldier said: "Put it down right away!"

"The woman, however, remained, and the soldier said to Tisza, 'What have you in your hand?'"

Tisza replied: "You can see it's a revolver."

The soldier said: "Put it down right away!"

ble for the millions of people who have been slain."

DECLARES INNOCENCE.

Tisza said: "I am sorry for it in the highest degree, much more than you, but I am, nevertheless, not guilty, and that is an error."

The soldier once more ordered the woman away and said to Tisza: "Now we will reckon with you." Tisza took a step forward with the intention of striking away the soldier's rifle with his hand, but at the same moment he was hit with three bullets and sank to the ground.

Tisza's last words as his wife ran up were: "This had to happen." The murderers fled immediately and got completely away. The Chief of Police said he had warned Tisza to leave the city, as his life was in danger, but some days after the first warning he met him on the street and said: "You are still here? It is better that you should go away and not remain here in these times."

Tisza replied: "A Tisza does not hide himself. He is not afraid."

**HAWAII LAVA STREAM
THOUSAND FEET WIDE.**

[BY CARLE AND ASSOCIATED PRESS.]

HILO (T. H.) Oct. 2.—A stream of lava 1000 feet wide is flowing into the sea at the rate of from twenty to thirty miles an hour from the crater of the volcano Mauna Loa, which first threw forth lava Saturday. EFFORTS FAILED
FOR TEN YEARS

Was So Weak and Run-
Down He Could Hardly
Get About.

O. N. Snow Says Tanlac is
the Greatest Medicine
in the World.

Feels Like a Different
Man Altogether,
Now.

"I don't believe you could name a single medicine I haven't tried during the past ten years trying to find something to overcome my troubles, but Tanlac is the only one of them all that ever did me any good at all," said O. N. Snow, a well-known machinist who works at the Miller Hite and Box Co., and who lives at 1610 South Hope street, Los Angeles, while talking to a Tanlac representative the other day.

"When I commenced taking Tanlac," continued Mr. Snow, "I was so weak and run-down I could hardly go to work. I had been suffering for so many years without getting any relief, and all this had simply gotten the best of me. My kidneys were in very bad condition, and the pains in my back got worse every day. This pain would sometimes get up into the back of my neck and I couldn't turn my head at all, and if I wanted to look around, I would have to turn my entire body. Then, too, I suffered something awful with headaches, and my entire nervous system got in such bad condition that I never got a good night's sleep. I lost a lot in weight, and just kept going down hill until I was about past traveling."

"Then I heard about Tanlac and made up my mind to buy a bottle of it and see if it would do me any good. Well, sir, before I had finished that first bottle I could see that it was doing the work for me, and when I had finished my third bottle I was feeling like a different man altogether. I can truthfully say now that I am enjoying as good health in every way as I ever did in my life. My kidneys never give me a particle of trouble, and I have gotten rid of all that nervousness, and when I go to bed now I sleep like a log every night. I think Tanlac is the greatest medicine in the world and I am more than glad to recommend it to every body."

Tanlac is sold in Los Angeles, Pasadena and San Diego by The Owl Drug Co.—(Advertisement.)

ACTION IS URGED
IN LOS ANGELES.

Dilatory Tactics may Lose
Submarine Base.

Daniels has not Received
Land Required.

San Diego and Portland Have
Met Requirements.

BY ROBERT B. ARMSTRONG.
(EXCLUSIVE DISPATCH.)

WASHINGTON, Oct. 2.—San Diego, Portland and other Pacific Coast cities mentioned in the Heim report as eligible for improvements with submarine bases or other stations for the navy have already presented the Navy Department all the land desired and with every inducement for the navy to act favorably. Los Angeles has not responded. When Secretary Daniels was in Los Angeles examining the submarine base at the harbor he asked for fifty acres in addition to the 160 acres in the original base. He has heard nothing further from Mayor Snyder, the Chamber of Commerce or any other civic body or individual in Los Angeles cannot under the circumstances be considered.

Secretary Daniels enjoyed his stay in Los Angeles and would like to give the city every chance and so yesterday he sent for Congressman Osborne and told him he had not heard from Mayor Snyder and that the situation bothered him. Under the law, he explained to Congressman Osborne, the Secretary of the Navy is required to complete his annual report and make his recommendations for the coming fiscal year. In order to get any action in the next report Los Angeles submarine base proposition must be in the Secretary's hands in the next few days.

QUICK ACTION NEEDED.

Congressman Osborne immediately after his conference with Secretary Daniels wired to President Woodrow Wilson and to the Secretary of the Navy, asking for some prompt action and explaining at great length the necessity for this matter out of ordinary channels.

Congressman Osborne during the debate on the proposal to charge Panama Canal tolls for ship tonnage and the Chamber of Commerce well spoke in favor of an amendment releasing all American ships from any tolls whatever. This was on a proposal offered by Congressman Johnson of Washington. Congressman Osborne said there should be no tolls on American ships any more than on an American river.

QUOTES WILSON.

He quoted in support of his position an address of great clarity and precision delivered by the then Governor of New Jersey. That was in 1912 and the Governor was Woodrow Wilson, who in the course of his arguments against tolls contended that the Democratic platform and the National Democratic Committee proposed the abolition of those tolls. This plank of the platform was afterwards repudiated by the President.

Northern California is sending to Washington on October 13 a strong

delegation of bean men with data and authority to make a fight for some real protection in the tariff for American grown products of this type. So far no word has been received as to whether any bean men from the Southern part of the State will be present. The fight will be close and of great importance to this extensive industry.

The Interstate Commerce Commission has set October 30 for a hearing of the United Verde Mining Company claim against the B. and O. and the Santa Fe. The hearing will be at Los Angeles.

PLEADS FOR AMERICAN
TROOPS FOR ARMENIA.

SENATE COMMITTEE HEARS ARGUMENT BY PEACE REPRESENTATIVE AT PARIS.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Oct. 2.—Members of the Senate Foreign Relations committee are considering whether the sending of American troops to the Caucasus to protect the Armenians would be considered an act of war against the Turks. A brief submitted to the subcommittee, Miran Sevaly, representative in Los Angeles examining the Armenian national delegation of Paris, said:

"It would not be so considered, as that part of the territory which is the subject of the present controversy is not a part of Turkey and is considered as forming a part of Russia. The troops, therefore, will be friendly to protect the Armenian inhabitants who are threatened on the north by the Turks and on the south by the Kurds."

Mr. Sevaly begged the subcommittee to disregard for the present such questions as the mandate and the future of Armenia and to advise the sending of American troops to the Caucasus to protect the Armenian inhabitants who are threatened on the north by the Kurds and on the south by the Kurds. He said that the Armenian question is a part of the United States should be extended to the Armenians at this critical stage of their existence by dispatching at once a few battalions of American troops to the endangered regions to protect the inhabitants until the Armenian question is finally settled and Armenian independence is safeguarded.

Mr. Sevaly's statements were corroborated by Capt. J. H. Hyde of Exeter, N. H., who has just returned from Armenia and who gave a circumstantial account of the situation there. Capt. Hyde said more than 100,000 Armenian girls are in the hands of the Kurds. The Kurds and other tribes and the sending of American troops would serve to insure their liberation.

BERLIN BUGABOO OF
FINANCE DISSOLVED.

BRITISH CHAMBER OF COMMERCE DENIES CLEARINGHOUSE FOR GERMANY.

(BY CABLE-EXCLUSIVE DISPATCH.)

BERLIN, Oct. 1.—One of the biggest bugaboos contrived in Germany since the armistice was dissolved today when Secretary Jordan of the British Chamber of Commerce in Cologne announced the parent organization in London had disowned the plans to erect a British clearinghouse in Berlin and demanded the resignation of the man who proposed the scheme. According to the London dispatch, the clearinghouse was intended to give England sole control of all Germany's import and export trade, much to the detriment of the United States. German officials never contemplated such an agreement, and the English were so indignant that the Chamber of Commerce in Cologne was dissolved. The clearinghouse was intended to give England sole control of all Germany's import and export trade, much to the detriment of the United States. German officials never contemplated such an agreement, and the English were so indignant that the Chamber of Commerce in Cologne was dissolved.

Bernhard Dernburg, former Minister of Finance, unqualifiedly refused to accept the portfolio as part of a reconstruction of the German Cabinet. This makes it certain that Erzberger will retain the Finance Ministry, but a full week's conferences on other changes contemplated have failed to bring an agreement on the terms of a re-entry of the Democrats into the government. A vote of confidence given Minister of Defense Noske by the Majority Socialists ended all talk of his retirement, and Bauer's recovery from an attack of heart trouble, which is thought opened the way to a return of Scheidemann, Minister-President, checked agitation on this subject.

OFFERED TO GERMANS
PROOF OF INNOCENCE.

DISCLOSURES OF AUSTRIAN RED BOOK WERE REFUSED BY THE PEACE DELEGATION.

(BY CABLE-EXCLUSIVE DISPATCH.)

VIENNA, Sept. 27 (via Paris, Oct. 1).—The Neue Tag today says that all papers recently published in the Austrian red book, showing the responsibility of the old Austrian monarchy for the outbreak of the world war, were offered to the German delegation to Versailles in order to better to relieve Germany of the blame. The paper says it has the story on indisputable authority. At the time of the negotiation between Germany and the Entente, Dr. Roderick Gooss, at the instigation of Bauer, then Minister of Foreign Affairs in Austria, went to Berlin to offer all the documents proving Austria alone was guilty for bringing the war to Count Brockdorff-Rantzau to make Germany's guilt less heavy and to secure better peace terms.

Brockdorff-Rantzau made no use of the papers and probably recognized it would not make the case better for Germany and would only hurt the cause of Austria. The paper says Bauer was very simply minded if he did not see that, too.

DEADLOCK PROSPECT
IN WAGE CONFERENCE.

(BY A. P. DAY WIRE.)

BUFFALO, Oct. 2.—The appointment of a subcommittee to take up the issues with which the body has failed to make progress appears to be the most likely procedure at today's session of the joint wage conference of operators and miners from the central bituminous coal fields. The conference reconvened this morning with no basis of negotiation before it. The miners delegates declared, however, that the next move must come from the operators and if they had nothing to offer the conference would be at a deadlock, leaving a strike of 400,000 miners November 1 as the only alternative.

LEAGUE COVENANT
QUESTIONS ANSWERED

BY FRANK JAMES,
Entangling Alliances.
No. 5.

Question: Why should the United States join in a league with European and Asiatic states? Why should the United States mix in European politics? Do you remember Washington's warning against entangling alliances?

Answer: The United States should join in the league because the world now stands the league is the only means by which we may keep out of European politics and avoid entangling alliances.

Q: How do you figure that out? A: Substitute for the League some statement proposed an alliance of England, France and the United States?

Q: Yes, I remember the discussion and also remember that it was pointed out that the only safe alliance would be the United States in the leading nations of the world.

A: You are right about it. The proposed league is the first alliance for peace; all other alliances have been war alliances to the balance of power in the event of a change in the great nations of the world, not excepting the United States. The league covenant is not a war alliance, it is a peace alliance. It is a covenant of peace, not a covenant of war. It is a covenant of peace, not a covenant of war. It is a covenant of peace, not a covenant of war.

Q: But the league covenant must be backed by the armed forces of the member states, or it will be a failure?

Q: But the league covenant must be backed by the armed forces of the member states, or it will be a failure? A: The armed forces of the member states are behind the league of course, but the opponents of the league overlook the fact that with a league in existence there will be small armies, small navies, fewer sacrifices and lesser taxation. The league is not an alliance in the Washington sense of the word. It is a covenant of peace, not a covenant of war. It is a covenant of peace, not a covenant of war.

Q: But you must admit that if the armed forces of the states are behind the league that the United States, in becoming a member of the league, must, when the occasion arises, furnish its quota of armed forces in aid of the league?

Q: The league proposes to bring in all of the nations and thus do away with the so-called balance of power?

A: That is my understanding of the purpose of the league. It is to bring in all of the nations and thus do away with the so-called balance of power.

Q: Do you think that the league will do away with international controversies?

A: No, but it will remove one of the incentives to war by doing away with alliances. This was a first step. Controversies are bound to arise, but under the league, the settlement of these controversies, the states will stand upon equality and the dispute will be settled in accordance with principles of justice and not in accordance with the military strength of a particular state or of an alliance.

Q: Who will decide the controversies?

A: Representatives of the states in the council or representatives selected by the parties.

Q: Don't you see that the United States will be drawn into European and Asiatic entanglements?

A: Not at all. The representative of the United States sits in the council with a representative of the other states as judges. The council may be likened to a court. A court in deciding a controversy between individuals is not in the quarrel, is it? You would not say that a judge is a party to the dispute, would you?

Q: I don't get your meaning?

A: We will suppose that Belgium and Holland have a dispute over a boundary line and, unable to agree, request the United States to appoint one of seven arbitrators to decide the controversy and the seven arbitrators proceed to hear and decide the same.

Q: What you mean is that in joining the league and appointing a representative to act with representatives of other states in the settlement of international controversies, the United States is merely providing the means for arbitration and is not taking on or settling in European controversies. But wouldn't it be better for us to let Europe settle her own international disputes? Why don't we get out and stay out of foreign complications of this kind?

A: Haven't we had enough of them? 50,000 dead; 275,000 casualties; and \$25,000,000,000 in money?

A: How can we stay out of European affairs any longer? We tried to stay out of the war, but we got in, and why? The cause of the war did not directly concern us. The murder of the Crown Prince of Austria was a matter for Serbia and Austria to settle. But once the war was started the cause of war was forgotten. It quickly developed into a war of conquest. The fighting and the killing and destruction were beyond the sea and of course far away, but somehow or other we were drawn in.

Q: We were drawn in the war because Germany transgressed upon our international rights as a neutral state?

A: Yes, Germany started and kept up the U-boat warfare in violation of international law, and did many other things which tried our patience. These prompted us to act, but the real cause of our intervention was elsewhere. The war had been going on for three years; France and her Allies were nearly exhausted. Germany had swept everything before her and after the declaration and subjugation of Europe, America was next on the programme. Thus after three years had passed, the American statesmen woke up to the fact that there was henceforth no security for any part of the world unless the German military machine was crushed and German kultur uprooted. And notwithstanding the happy outcome of the war, the international situation today is what it was in 1914. Our isolation and our aloofness for the failure of Europe were brought to an end when the triumph of the German arms seemed but a few weeks off. Then alone of saving France and her Allies, but it had become, and is now, a question of saving ourselves from a like wreck and ruin.

Q: You think that as the world now stands we must concert ourselves with the European nations to preserve peace in Europe in order to keep us out of war?

A: We do not Europe to preserve peace, not because actual war is in sight for us at home, but because Europe will not be able to maintain peace without our assistance. What we are interested in at home and abroad is peace. The

United States cannot be a happy and prosperous people while the outside world is at war or on the verge of war. The inter-relationship of states is now so close that a war disturbance anywhere unsettles the affairs of the whole world.

Q: It strikes me you are assigning too large a part to the United States. I am at a loss to know whether you have in mind the best interests of the United States, or whether you think the benefit of the league to the United States would be anywhere near the sacrifices required of this country?

Q: Will you please tell me what sacrifices you have in mind?

Q: Well, how are you to preserve peace without standing armies and great navies, which mean taxes, and more taxes, and how are you to enforce peace upon unwilling states unless you have thousands of men on the firing line ready to sacrifice their lives?

Q: Some people see only the dark side. It is unfortunate that nearly all of the objections to the league bet and end in darkness. The opponents of the league warn us of dangers lurking here and there and of traps laid by designing nations to inveigle the United States in the league. And I wonder if they realize that the league covenant costs nothing; that it may be had for the asking and that it places no burden upon any state, which it may not safely and justly exact from exact states of affairs which is sure to produce war. There is a wrong impression abroad concerning the league. The purpose of the league is to secure peace without cost of human life, or other sacrifice. The purpose of the opponents of the league is to leave the world free to fight at will and without cause.

Q: But the league covenant must be backed by the armed forces of the member states, or it will be a failure?

Q: But the league covenant must be backed by the armed forces of the member states, or it will be a failure? A: The armed forces of the member states are behind the league of course, but the opponents of the league overlook the fact that with a league in existence there will be small armies, small navies, fewer sacrifices and lesser taxation. A: That is my understanding of the purpose of the league. It is to bring in all of the nations and thus do away with the so-called balance of power.

with a chip on each shoulder. Any one can understand, therefore, that cost and waste and sacrifice on the part of the United States are ahead of us in a leagueless world.

Q: You seem to think that the sacrifices and burdens that we bear much about will fall upon the United States if we do not join the league?

A: Yes, sir. The league is the only escape. We speak of the forces of men and guns and navies behind the league and the implication is the employment of these forces to preserve the peace of the world. But there is something behind the proposed league more potent for peace than armed forces. This something is the potential power of the league as an existing fact behind which are the combined war resources of the associated nations of the world and the will to sit with forces at large for the maintenance of peace. No state, big or little, would dare act aggressively against another nation in disregard of the league and its members. We should join the league to get the benefits of this concert of power and purpose, and relieve ourselves and every other state of the burdens of a leagueless world. The opponents of the league are not willing to make sacrifices for peace. They are willing to, and are pursuing a course which will make sacrifices necessary to prepare for war. They are not willing to take any chances for peace, but they are willing to continue a state of affairs which is sure to produce war. The purpose of the league is to secure peace without cost of human life, or other sacrifice. The purpose of the opponents of the league is to leave the world free to fight at will and without cause.

Q: But the league covenant must be backed by the armed forces of the member states, or it will be a failure?

SOCIETY DAMES ENTER PROTEST.

New Dance Ordinance Would Stop Many Functions.

Couch City Church May Have Community Laundry.

Schools will Establish Course in Instrumental Music.

(LOCAL CORRESPONDENCE.)

PASADENA, Oct. 2.—It has been discovered by the citizens of Pasadena that the ordinance regulating dance halls and academies adopted last week by the City Commission would, if enforced, stop all society balls and dances in Pasadena clubs, hotels, lodge halls and homes, as well as dancing academies. It would mean no more dances or one-nighters for Pasadena young people.

Therefore a hue and cry have been raised and many signatures are being obtained for referendum petitions being circulated here today.

The new ordinance prohibits dance halls and academies and all places where dancing is permitted, in the "residential district" of the city of Pasadena. In the terms of the city laws there are only two "districts" in the community—the "residential district" and the "industrial district," the latter a small area on South Raymond and Fairview avenue and including the railroad yards.

None of the clubs, hotels, lodge halls, public halls and dancing academies are situated in this small "industrial district." Some of them are situated in the business district of the city, to be sure, but as the city law now reads the business centers are a part of the "residential district."

The Valley Hunt Club on Orange Grove avenue, the Shakespeare

PRISONERS HERE BELIEVE IN SIGNS.

(SPECIAL CORRESPONDENCE.)

CELIXICO, Oct. 2.—Calixico's City Jail has a sign over its front door which reads: "Keep Out."

Chief of Police Boucher, however, says he has a hard time keeping any one in, since the last prisoner left after cutting a hole in the wall and crossing the Mexican line into Mexico.

Club, Elks' Club, Masonic Temple, Odd Fellows' Temple, Macabees Auditorium, K. P. Castle, Woodmen Hall and all the famous Pasadena hotels would be precluded from holding dances if the new ordinance stands.

The ordinance was adopted following protests of residents of Summit avenue against Mark Hall's Dancing Academy on Summit avenue. However, it has failed thus far to put Mr. Hall's academy out of business. Mr. Hall said today he is going ahead with his fall classes and has arranged to hold dances at the Shakespeare Club House.

HURLED BY TRAIN—LIVES.

Fred S. Conger, 125 Bruce avenue, experienced the sensation of having his auto knocked from under him by a train, yet living to recount circumstances of the accident. Conger was driving down Hill avenue this afternoon when a Santa Fe switching train struck his car at the crossing. The impact threw him thirty feet. He was picked up conscious, suffering from severe cuts on the head, and removed to his home. It is not believed that he suffered any internal injuries. His auto was badly smashed.

PLANS COMMUNITY LAUNDRY.

The First Universalist Church of Pasadena is planning to conduct a "community laundry" in the church basement, where all citizens may take their clothes and wash them at ideal.

community tubs, according to an announcement today by Rev. Carl P. Henry, pastor of the church. The plan is still in its preliminary stages, said Mr. Henry, and many details are still to be worked out. He said, however, that the "laundry" would be conducted under the auspices of one of the church auxiliaries and was planned to cut down the H. C. of L.

ORCHESTRAS IN SCHOOLS.

After consulting the parents of children who desire to learn to play musical instruments and join school orchestras, the Pasadena school authorities have decided to engage an instructor in orchestral music and to teach this subject to children who are interested. Supt. J. F. West said today that most of the parents were willing to pay for their children's instruments and some means would be found to provide instruments for those unable to pay.

For rent, 4 to 6 months; elegant; furnished, strictly modern, 14-room home; never been rented; choice location, spacious grounds, beautiful trees and shrubbery; garage for two machines; chauffeur's quarters. McDonald Co., 32 E. Colorado st.—[Advertisement.]

ACCIDENT IS FATAL.

SOLDIER'S HOME, Oct. 2.—John Burnham, veteran of the Civil War, who was brought to the Soldiers' Home from Sawtelle several days ago, suffering from injuries sustained in a fall from his bicycle, died Wednesday, October 2, aged 82. Funeral services at the morgue will take place on Saturday, October 4, at 9 a.m. Burnham's war record is Co. E, Sixth Michigan Infantry. He was admitted to the Home from Los Angeles in 1916. He is survived by a widow, Mary Burnham, and son, John, who reside at 325 North Ninth street, Sawtelle, Cal.

TO ADDRESS TEACHERS.

LOCAL CORRESPONDENCE. EAGLE ROCK CITY, Oct. 2.—Dr. Silas P. Evans, president of Occidental College, will speak at 10:30 a.m. today at Huntington Beach, before the Teachers' Institute of Orange county, on "The Teacher in Professional Terms and Ideals."

MAY HAVE LANDED SAFELY.

Col. Watson also said he believed that the two aviators landed safely about fifteen miles from the place where the bodies were reported found by Joseph Allen Richard, and that they had met death some time after their landing.

Maj. Theodore Macaulay and Lieut. H. E. Queen in their search for Waterhouse and Connolly went within a few miles of the place where the two aviators now are believed to have landed, and the base of the Rockwell Field searching parties, with the naval tug Challenge, at Blanca Bay, was only six miles from the place where the bodies were found.

Mrs. Norman T. Connolly, mother of the missing aviator, said today that the telegraphic description of the ring found on one of a ring her son wore when he started on his last flight on August 21.

Lieut. Waterhouse and Connolly left Yuma August 20 for San Diego while on aerial patrol duty. They were last seen by Americans while passing over Jacumba, near the border. Their plane was traced by army authorities across the border to a point below San Quintin. Although an extensive air search was made for the two young men by army aviators, no final traces were reported. Waterhouse's home was in Weiser, Idaho, but his mother came to San Diego during the search for his body. Connolly's mother lives here.

LOST AVIATORS REFORM MEANS ARE IDENTIFIED.

Mothers of Missing Soldiers Mexican's "Clean up" Results in Series of Shifts.

Flyers Left Yuma for San Diego August 20.

Extensive Search has Failed to Produce Results.

(EXCLUSIVE DISPATCH.)

SAN DIEGO, Oct. 2.—It is thought here by authorities that the two bodies in uniform reported to have been found by Joe Allen Richards, near San Felipe, Mex., were those of Lieut. Frederick B. Waterhouse and Cecil H. Connolly, the two North Island aviators lost some time ago.

Mrs. Waterhouse, mother of Lieut. Waterhouse, stated today that her son's hair was a dark brown and that he was five feet, six inches tall. She did not know which of the two men was the taller. One of the bodies found had sandy hair, according to Richards's report.

CUFF LINKS SIMILAR.

Mrs. Connolly, mother of Lieut. Connolly, stated that her son wore cuff links similar to those mentioned by Richards in his report, brought to Nogales yesterday.

Col. H. L. Watson, commanding officer at North Island aviation station, said that an investigation concerning the identity of the bodies described by Richards would be conducted by the Southern Division of Aviation. Orders might then be received at the North Island station to send airplanes south for further aid.

Many rumors are afloat, some of them carefully designed, but the persistent one is that several citizens of Mexico concluded the Owl was making an enormous profit, some claiming as high as \$250,000 a month—and this profit should belong to Mexicans, they thought. The reason the \$250,000-a-month House money was so easily secured to induce Gov. Cantu to close the Owl.

And here comes the other side, the management of the Owl, with the statement that the cafe has been making no money for some time, and that the management was looking forward to the future to make up losses.

It is very possible the Owl is not making the money it did before the war. In fact, this is probably true, for the management is making frantic efforts to secure a permit to open again—and the Mexicans say Americans aren't crazy to operate a losing game in Mexico.

From all appearances, there will be a large number of smaller gambling concessions in Mexico, each conducting a popular game of chance.

There is also a great deal of speculation in Mexico that the first actual moral reform wave, moral from an American point of view, is being made to clean up. It is more probable that the general tone of the gambling resorts will be elevated to some extent.

Gov. Cantu's throne toppled during those first few uncertain days in September, and no one really knows what the Governor himself is talking for publication, but the entire system of government is going to be remodeled at Mexico. The police force will be organized and increased, and at the same time the undesirable, in the view of the government, will be deported across the American line.

The Governor will take no more chances on a revolution, as was shown by the armed guards at the recent celebration of the national holiday.

The saloons, under chaperonage, are open, and it has been a long time between drinks, but Mexicans say the nonstop dry spell in Mexico for many a year.

BURIED FROM MISSION.

Services for Pioneer Held in Historic Building.

(LOCAL CORRESPONDENCE.) VENTURA, Oct. 2.—Funeral services for Mrs. Katherine DeTroy were held this morning from the old mission. Mrs. DeTroy had been a resident of the State for sixty-four years and had lived in Ventura for forty-two years. When the DeTroys came here they made their home in the picturesque old quarters that surrounded the mission of San Buenaventura, quarters that have long since disappeared before the march of progress.

Mrs. DeTroy passed away many years ago. The widow is survived by three children and a number of grandchildren.

BRING GOAT TO SCHOOL.

EL CENTRO, Oct. 2.—Election of leaders for the student body resulted in a near-riot in the Central Union High School today.

Just before the results were announced, several juniors made their appearance in the main assembly with a billy goat which was turned loose, and soon after a fresh fight of the desks ensued, and to cap the climax several students who had secured some eggs of state vintners started to throw them at the goat.

When order was restored Principal Randall forced the offending students to clean up their mess and apologize to the student body.

Henry Parrish was elected president; he is a junior. Harry Barker, also a junior, is vice-president. Dorothy Hopkins secretary and Lynn Calvin, treasurer.

RECEIVE NEW PASTOR.

REDLANDS, Oct. 2.—The Rev. C. W. F. Stover, new pastor of the English Lutheran Church, will arrive in the city on Friday, and will take up his charge at the church on Sunday. He comes from Seattle, where he has lived most of his life. He was born in Washington and has been on the Coast all but the six years that he was in the seminary in the East. He is a big man physically and said to be a fine public speaker and an exceptionally good organizer.

FOREST FIRE COSTLY.

Many Thousand Dollars Paid to Men Who Fought Blaze.

(LOCAL CORRESPONDENCE.) POMONA, Oct. 2.—From \$30,000 to \$35,000 will be paid in Pomona by the Federal government as a result of the recent mountain fires. This money will be for labor and supplies secured in Pomona, Claremont, Chino, La Verne and San Dimas.

It was estimated today that this section furnished 1500 fire-fighters. Eight hundred men were used on the sunset trail ridge alone while 500 were used in the San Dimas Canyon section.

In addition to these there were 200 or 300 who were distributed in other districts. State Trooper, who was timekeeper for several hundred of the fighters, said today they would average thirty hours each and that their pay would equal \$13.50 to each man employed.

In addition to the fire-fighters there were a number of overseers and others who received a larger wage. All day yesterday bills came into the Chamber of Commerce from merchants of the valley who had furnished supplies. These included hauling, automobile and many other things used during the emergency.

CITIZENS TO ASK PARK IMPROVEMENT.

START MOVEMENT AT RIVERSIDE FOR MUNICIPAL PLAYGROUND.

(LOCAL CORRESPONDENCE.) RIVERSIDE, Oct. 2.—Representatives of the Riverside Military Band and other civic organizations will appear before the City Council next week with the request that there be placed on the ballot at the November election the proposition of diverting the question of the purchase of improvements in Fairmount Park to the amount of \$25,000.

It is proposed to submit to the voters the question of transferring this amount from the depreciation sinking fund of the electric light department to the city treasury for the purpose of erecting a pavilion to cost \$11,000, a band stand and open-air theater costing \$1000, and amounts for other features as follows: Plunge dressing-rooms, \$3000; enlarging Fairmount Lake, \$3000; extending automobile camp grounds, \$1000; seating, \$1000.

MEXICAN SURVEY.

Special Agent Gathering Information as to Conditions.

(LOCAL CORRESPONDENCE.) REDLANDS, Oct. 2.—M. S. Carrizosa of Los Angeles, a special agent of the State Immigration Commission, is visiting all the county seats of the south, gathering statistics relating to the Mexican population in California.

No very determined effort has ever been made to get the figures. The commission is seeking information not only to the number of them in the State, but as to housing and living conditions, wages they are given and how often they go back to Mexico. An effort is being made to determine how many send their children to the schools here. Carrizosa says he has discovered that prohibition has done wonders for the Mexicans. He says that all the families are making money now, and that is spent for good clothes for the women and children, for talking machines, and for good things to eat.

SUSTAIN BOOZE LAW.

Court Holds It Is Unlawful to Transport Intoxicants.

(LOCAL CORRESPONDENCE.) RIVERSIDE, Oct. 2.—The constitutionality of Riverside county's liquor ordinance, questioned in connection with the defense of Pablo Velarde on a charge of illegally transporting liquor over the state highways, was upheld in Judge Craig's court, where Velarde was found guilty.

The officers found in Velarde's automobile, which was stopped near Wineville, twenty-five gallons of Port wine, twenty-four bottles of beer and thirty quarts of whiskey, according to their testimony. They further testified Velarde stated that if Deputy Sheriff J. A. Amerasia of San Bernardino county had not been with Detective Charles F. Ward at the time of the arrest he would have blown the later's head off. Other damaging testimony against the defendant was the assertion that he offered the officers \$200 to drop the matter. Sentence will be pronounced Saturday.

BUY TRUCK LINE.

Highway Transportation of Freight to be Improved.

(LOCAL CORRESPONDENCE.) VENTURA, Oct. 2.—Involving about \$40,000, a deal has been completed by Messrs. Waterman and Carne whereby they have acquired the truck lines of Harry Hunt of Ojai. The new owners will put on much new equipment and will run ten trucks where the present management has been operating four. The purchase includes the lines to Los Angeles, Ojai and Oxnard. Waterman and Carne are garage owners, and liquor put in a freight depot at their establishment on Palm street, near Main.

CYANIDE PROVES FATAL.

(EXCLUSIVE DISPATCH.) SANTA BARBARA, Oct. 2.—Because he had covered his gambling debts at Guadalupe with worthless checks after having lost more than \$100 in cash, George H. Swain, an engineer, 35, drank cyanide at Santa Maria this morning and two minutes later dropped dead in the street.

He leaves a widow and two small children in Oakland. Several of his worthless checks had been returned to holders. It is said, and Swain was fearing arrest.

OPENS LAW OFFICE.

(EXCLUSIVE DISPATCH.) WHITTIER, Oct. 2.—Lieut. Frank G. Swain, who was recently returned from service, has opened a law office here, occupying a suite on the second floor of the Building. Lieut. Swain is the son of Mrs. Kittle G. Swain, Whittier club woman, and for one year held the Rhodes scholarship at Oxford from Montana.

Two Warm Hearts to Welcome Him

—the other one is the "glowing heart" of the LAWSON Odorless—the room heater with the inner combustion chamber that sends out radiant heat; makes a room cozily warm in no time.

Different from all other gas stoves! No open flame! No stuffy, devitalized room atmosphere! Operates on the radiant heat principle—like the sun.

Its strong rays penetrate, without overheating, the air you breathe. Heat is not carried to the ceiling.

Consumes all the gas, at high temperature. No fuel waste—and absolutely no odor. Heats from both sides. Compact; takes up little space, yet gives out more heat than ordinary gas stoves of two or three times its size and price. Costs less to buy and less to operate.

Try the LAWSON Odorless—for health, for economy, for its ample, cheery warmth. You can heat the whole house with these powerful little heating marvels. An economical size for largest to smallest room.

Come in! let us demonstrate the LAWSON Odorless.

WE CURE Piles, Fistula

And All Rectal Diseases

WITHOUT an OPERATION

For twenty-five years we have been curing diseases of the rectum and lower bowel. During that time our experience has enabled us to develop a method that is superior to others. We cure without surgery and our patients are not confined in bed and seldom lose a moment's time from their business.

Here are some of the persons who have been restored to a normal condition, and would not go back to the old life for any consideration:

J. M. Smith	Glendora, Cal.
E. R. Du Bois	Loveland, Nevada.
Thos. Wardrobe	721 Golden Avenue, Los Angeles, Cal.

SHE SUFFERED FIVE YEARS

Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Ke West, Fla.—"For five years I suffered from irregularities, with terrible pains and an awful weakness in my back. The doctor gave me different medicines but they did me no good. A friend asked me to try Lydia E. Pinkham's Vegetable Compound and I found it to be the best medicine I ever tried because it made me well, and I can now do my housework. I am telling my friends about it."—Mrs. J. M. Camus, 726 Caroline St., Key West, Florida.

Many women at some period in their life suffer from ailments peculiar to their sex and which in most cases may be readily relieved by this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound, just as Mrs. Camus found it helped her after suffering for years and trying everything else in vain. If you have any annoying symptoms you fall to understand, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The results of their forty years experience in advising women on this subject is at your service.

At the first sign of skin trouble apply

Resinol

That patch of eruption is not necessary a serious matter! Even in severe, well-established cases of eczema, ringworm or similar afflictions, Resinol Ointment and Resinol Soap usually relieve the itching at once and quickly overcome the trouble completely. How much more, then, can this simple, inexpensive treatment be relied on to dispel skin troubles in their earlier stages.

Resinol Soap and Resinol Ointment are sold at all drug stores. For names of each area, write to Dept. 14, Resinol, Baltimore, Md.

The Army of Constipation

Is Growing Smaller Every Day

CARTER'S LITTLE LIVER PILLS

are responsible. Not only relieve constipation, but correct biliousness, sick headache, indigestion, and low skin— they never fail to remove all regular habits follow. Purely vegetable.

Small Pill—Small Dose—Small Price

DRY FORCES TO KEEP LID DOWN.

Will Fight Lifting of Ban Imposed on Liquor.

Insist Treaty Ratification Must Precede Release.

Declare Opening of Saloons will Arouse Mobs.

[EXCLUSIVE DISPATCH.]

WASHINGTON, Oct. 2.—Officials of the Anti-Saloon League of America, fearful in the face of persistent rumors that the war-time liquor ban may be lifted before ratification of peace, issued a statement today declaring that such an act would be in violation of the law and a "crime against civilization and the coming generations."

In an effort to concentrate public opinion against the lifting of this war-time ban by executive authority the Anti-Saloon League officials point out that the result of such a course would be to fill the homes of the country with whiskey during the open period before constitutional prohibition sets in next January; that drunkenness would be multiplied and "the unrest and lawlessness which now prevail would be aggravated" with disastrous consequences.

SEE RULE OF MOBS.

Predictions of liquor inflamed mobs destroying life and property are made by the league leaders who insist that the plea of necessity for opening the saloons to protect bankers loaded with liquor warrants certificates should fall on deaf ears.

"If saloons reopen," says the Anti-Saloon League statement, "the peace treaty is ratified and demobilization is completed, they will find themselves in the hands of the 'unrest and lawlessness' which now prevail. The only way to avert this would be to place a prohibitive tax on liquor. On account of an shortage of the way this method seems to be impracticable."

AVAILS RATIFICATION.

The first is the ratifying of the treaty and thereafter the termination of demobilization. If these two conditions are fulfilled no one can justify complain even though the reopening of the saloons for a few weeks will be catastrophic. The only way to avert this would be to place a prohibitive tax on liquor. On account of an shortage of the way this method seems to be impracticable."

DOCTORS PREFER CALOTABS FOR A LAZY LIVER

Wonderful How Bright and Cheerful the World Looks After Taking This Nauseous Calomel Tablet.

Have you tried the new nauseous calomel that makes calomel-taking a pleasure? If you have, you appreciate the wonderful virtues of calomel when robbed of all its unpleasant and nauseating effects.

Calomels is the sensation of the drug trade. Pharmacists regard it as the best remedy for the liver. Its effect is biliousness, constipation and indigestion is most delightful.

The next time your liver needs a thorough cleansing try Calomels. One tablet at bedtime with a swallow of water, that's all. No taste, no nausea, no salts, no griping. You wake up in the morning feeling clean and a hearty appetite for breakfast. Eat what you please—no danger.

Calomels are sold only in original sealed packages, price thirty-five cents. Your druggist will gladly return your money if you do not find them effective and delightful. (Advertisement.)

FACTS—BUSINESS CHANGES

[illegible]

THE CITY AND ENVIRONS.

Boys' Banquet.

Two hundred boys, members of the Y.M.C.A., will be guests at an annual banquet of the boys' department at 8 p.m., today, in the auditorium of the central Y.M.C.A. The winning Bible club teams will be presented with a shield.

On League of Nations.

With former Judge Robert L. Hubbard taking the affirmative and Dr. John Miller Scott the negative the question of the desirability of approving the League of Nations pact will be debated before the Proximo Club at a noon meeting today in the Broadway Department Store cafe.

Seek Marine Recruits.

Men with "hardback teeth" are sought by the Marine Corps, according to a call for recruits sent yesterday from the station in the Central Building. "While Marines get the finest of fresh white bread in peace time," said Maj. Fegan, the recruiting officer, "they sometimes have to eat hardback in time of war. This means that they must have sound teeth. However, we fix their teeth if they are not sound, so the call for recruits means that all have a chance."

For G.A.R. Nurses.

Stanton W.R.C. No. 14, auxiliary to Stanton Post, G.A.R., will give its annual reception in honor of the Grand Army nurses on the roster of the corps as well as all others living in Southern California today, from 1 a.m. to 4 p.m. in Patriotic Hall, Figueroa and Eighteenth

streets. Refreshments will be served at noon. Invitations are limited to the nurses and members of the corps and post. An entertainment programme with the usual "memory" gifts to the nurses will be presented in the afternoon.

To Hear Mrs. Black.

Mrs. George Black, F.R.G.S., wife of Capt. George Black, former Governor of the Yukon territory, who has just returned from three years' war work in England and France, will speak this afternoon at the home of Mrs. E. W. Goodan, 2421 Menlo avenue, at a benefit entertainment given under the auspices of the Church Work Society of the First Presbyterian Church. Mrs. Black was for five months with the British War Department as correspondent for prisoners. She was also active in the work of the Canadian Red Cross in London, making a trip to Belgium in the interests of the organization. There will be music and refreshments.

Rock Missing Soldier.

The disappearance from Merced of Lieut. Lee Wood Foster, who was recently discharged from the air service, September 11, was reported to the police yesterday by Dr. D. E. Foster, his uncle, who has offices at 436 South Broadway. Lieut. Foster, who is 25 years old, left his home in Warrensburg, Mo., several weeks ago, to visit his uncle in this city. The last information received from him was from Merced, where he was stopping at 414 Seventeenth street. His family, after being unable to hear from him, requested Dr. Foster to start a search for him in California. Telegrams sent to the Merced address failed to get any information of his whereabouts.

BUSINESS BREVITIES.

(Advertising.)

Miss Lillian Payne opens new classes: Adults, beginners, Monday and Wednesday at 8 p.m.; advanced classes, Tuesday and Thursday at 8 p.m.; High School class, Friday evening, 8 to 10; classes for business men, socially or professionally, also classes now forming for adults and children in classic, interpretative and Russian ballet. Miss Payne, having recently returned from New York with all the very latest and snappy steps, assures you the most advanced work in art of dancing. Mothers, inquire about club rates for school children. Payne's Dancing Academy, 2018 Orange, 556621.

Boys' snappy suits in new styles and attractive mixtures are now being shown in our commodious new Boys' Department on the third floor of our big Spring-street store. The new "Sampeck" suits are full of style that stays and they are built for hard wear, too. Harris & Frank, 437 S. Spring, near Fifth.

Real 2.75 beer, Eastside or Maier, \$2 doz. net; pure wine vinegar, red or white, 75c gallon; Lion, Grenadine or raspberry syrup, 75c per bottle. Grumbach Wine Co., 659 Central ave., Main 1591.

Visit our bargain basement store. Used furniture taken in exchange on anything in our ten-floor store. Pasadena Furniture Co.—(Advertisement.)

The Times

FRIDAY MORNING, OCTOBER 3, 1919.—PART II: 10 PAGES.

POPULATION: By the Federal Census—(1910)—1,193,000.
By the City Director—(1918)—1,471,000.

VOL. XXXVIII.

SOUTHERN CALIFORNIA IS FOR LEAGUE OF NATIONS BY A BIG MAJORITY.

COMMUNITY BACKS THE PRESIDENT

Senator Johnson, Arriving Here Today to Attack Peace Pact, will Find Churches, Schools, Labor, Law, Business, Professions, Women Against Him.

Preceded by a tidal wave of public opinion in favor of the League of Nations which is remarkable for the diversity of its adherents and the emphasis of their expressions, Senator Hiram W. Johnson arrives on the Lark at 10:15 this forenoon to loose his tongue in opposition to the great principles which President Wilson so ably expounded here.

His arrival is the signal for a new campaign of the League of Nations in Southern California runs the whole gamut of human activity. It begins with the bench and bar, and ends with the staunch support of Democrats and Republicans alike, while the middle ground is occupied by educators, students, business men, club leaders, statesmen, pulpits, clubs and housewives. No great range could be conceived.

City councils, jurists of the superior and supreme bench, boards of education, college faculties, ministers of the gospel, school-teachers, business men, labor unions, civic organizations, social clubs, student bodies and people in all branches of party politics are giving their whole-hearted support to the cause which President Wilson is championing.

COMMERCE CHAMBER.

The following resolution was unanimously adopted yesterday by the directors of the Los Angeles Chamber of Commerce, Seventeen members were present and voted, and three being absent. Fifteen of the seventeen are Republicans and one Democrat.

"RESOLVED, that it is to the best interests of the country that the United States Senate speedily ratify the League of Nations and that it stands without amendment."

A vote was moved and carried that the resolution be wired to the President, the United States Senate, Senators Johnson and Phelan and given to the press.

CLUB WOMEN ACT.

Senator Johnson, who owes a great deal of his political success to the women of California, whose cause he has always most assiduously sought, has probably never received more severe rebuke than that which was administered to him this morning by the women of the city and county of Los Angeles, through the medium of the Los Angeles Federation of Women's Clubs, adopted resolutions addressed to Senators Johnson and Phelan, urging them to vote for the ratification of the League of Nations. The resolution was unanimously adopted by the 180 presidents of women's clubs in this district at a meeting held at the Hotel Hamilton yesterday.

At the same time, the Los Angeles Federation of Women's Clubs, through the medium of the Los Angeles Federation of Women's Clubs, adopted resolutions addressed to Senators Johnson and Phelan, urging them to vote for the ratification of the League of Nations. The resolution was unanimously adopted by the 180 presidents of women's clubs in this district at a meeting held at the Hotel Hamilton yesterday.

The resolution was unanimously adopted by the 180 presidents of women's clubs in this district at a meeting held at the Hotel Hamilton yesterday.

HERE IS THE PROOF OF IT.

Following are straw votes collected by The Times during the past few days on the question: "Do you favor the League of Nations as outlined and defended by President Wilson and opposed by Senator Johnson?" Every available gathering of persons consenting to vote on the subject is included in this list, whether the result favored the position taken by The Times or not. In some cases certain of those voting favored the league with reservations. Where such reservations are of a minor nature, these are counted for the league, where not, against it. In all cases the number of voters making reservations is noted. Most of the church vote was taken at the prayer meetings held Wednesday evening, which accounts for the small vote cast. All are of Los Angeles unless otherwise stated.

The pastors of more than a dozen large churches in this city, who have not yet put the League of Nations to a vote before their congregations, express the opinion that the membership of their churches are almost unanimously in favor of it.

BLISTERING WELCOME TO JOHNSON BY THE MAYOR.

Ringing Condemnation of Opponent of League of Nations is Snyder's "Official Proclamation."

(The following statement was issued yesterday by Mayor Snyder after he had been repeatedly importuned by Hearst's local representatives and by other Johnsonites here to issue an "official proclamation of welcome" to Senator Johnson, as was done by Mayor Rolph, in San Francisco.)

BY MEREDITH P. SNYDER.
Mayor of Los Angeles.

Whether a man be a high representative of the people of California at Washington or a lowly citizen here at home, he is doing something for which he should be condemned if he attempts to prevent the ratification of the covenant of the League of Nations without offering a substitute for it which will be an improvement.

The League of Nations covenant is an earnest effort by the greatest statesmen of the leading nations of the world today to put an end to war. Whatever may be said for or against it, it is an earnest attempt to set up an agreement among the civilized nations of the earth that seeks to provide for peaceful, judicial and orderly settlement of international disputes, instead of the age-long system of war, bloodshed, brutality, suffering, criminal destruction, waste, and wholesale murder. The question is, is it not better to submit and arbitrate than it is to ruthlessly maim and kill. Why is it that nations—which are merely considerable collections of

(Continued on Sixth Page.)

The False Alarm.

IS MONROE DOCTRINE THAT COVERS WORLD.

SO DECLARES WORKS BOARD HEAD IN SPEECH ON THE LEAGUE OF NATIONS.

"The League of Nations is nothing but the Monroe Doctrine extended to cover the entire world," declared Lorrin A. Handley, president of the Board of Public Works, yesterday at the 100 Per Cent Club at its noon meeting in the City Club rooms. Mr. Handley explained various clauses that had been misinterpreted by the Senators who are opposing the covenant.

Mr. Handley offered several reasons for the pact's adoption. Among them was the settlement of international labor disputes. "Labor," he declared, "is organized into an international body and some board or body of men must be created to handle these international disputes."

"Mr. Handley also called attention to the self-determination of peoples and the need of some authority to guarantee the political and territorial integrity of all small nations against outside aggression. "And not one of these Senators," he declared, "has offered a substitute, but each has devoted his time and energy to tearing down and not building up."

The speech was punctuated by applause throughout.

VETERAN OFFICER IN FAVOR OF COVENANT.

AMERICAN LEGION HEAD CALLS LEAGUE THE PRODUCT OF GREATEST STATESMEN.

Capt. Walter Brinkop, president of the Los Angeles chapter of the American Legion, one of the United States fighters who shared the story of the St. Mihiel, Argonne and Ypres-Lys offensives, and who is now engaged in the work of aiding soldiers to return to civil life, is for the League of Nations.

His indorsement of the covenant, based on his study of the history of nations and also upon his personal experiences, constitute a most thoughtful pronouncement for the league. "I consider the covenant to be the product of the courage, understanding and insight of three of the greatest statesmen of the day," said Capt. Brinkop yesterday. "Who dares challenge Clemenceau, Lloyd George and Woodrow Wilson on the point of experience in world affairs? The President, in my opinion, has answered to the points of the opponents of the league in a manner entirely satisfying and assuring."

and Let Your Player Piano
Furnish the
Accompaniment!

The Buescher True-Tone Saxophone Is an Instrument of Unlimited Possibilities

As a solo-instrument, with piano or player piano accompaniment for dances, parties and evenings at home, for quartets or sextets, the Saxophone holds a place that can be taken by no other instrument. Parents who have the best interests of their children at heart should investigate the possibilities of this instrument. As an aid to deep breathing and its consequent improvement in the player's health, the saxophone is especially recommended.

You can learn to play the Saxophone—the most popular of all instruments—within 60 days, and if you read music it will require even less time.

We Will Teach You the Scale in 30 Minutes.

The People and Their Troubles

THOUGHTFUL PEOPLE BELIEVE IN PEACE.

None But Demagogues Oppose League of Nations, Says Lawyer.

LOS ANGELES, Oct. 2.—[To the Editor of The Times:] Men who appreciate war's dire consequences, men of superior intellect, possessing honest hearts and minds, who have seen their peoples in travail, everything dear to them at stake and all organized states trembling in fear of disintegration and future servitude, grasped the ripened opportunity, in fact the only opportunity that has ever come to the world, to put forward a great idea, in concrete form. They then began their colossal labors looking to the formation of a covenant or league to prevent the recurrence of this tragedy of the ages. The difficulties of such an undertaking must have appeared insuperable even to men of such wide knowledge of the affairs of the world possessed as they were of unusually sound judgment and keen intellect. The undertaking was so stupendous that the amazing results afford indisputable proof of the honest and conscientious efforts of all the representatives of the participating parties to accomplish the great object sought without selfish or ulterior motive. The covenant of the League of Nations is an agreement between certain sovereign states for the purpose of achieving international peace and security by obligations not to resort to warfare.

We will assume that it is not a perfect document, nor has any other document or agreement in the history of the world, the creature of human hands and minds, been perfect. Magna Charta, The Federation of States, the Constitution of the United States, were all imperfect, and their critics arose in myriads to attack and destroy them. Yet all were formulated by great minds prompted by great purposes. It is a truism that honest criticism is always permissible and can injure no man or cause. However, are the criticisms of the league honestly made and prompted by a desire to enlighten, or is the object to destroy something built up by others by any devious methods or specious arguments available because of jealous rancor?

The gist of the statements in reference thereto credited to the opponents of the league are bald assertions that England has six votes to one for the United States, which statements are made with the evident intention of creating the impression that we are "laxly placed at the mercy of arrogant and selfish England. No statement could

be more misleading. The league is a covenant between forty-five sovereign nations. The covenant provides for an assembly and a council. All nations becoming members of the league, whether having 1000 inhabitants or 1,000,000 become members of the Assembly and each has one vote in the Assembly. It is proper, essential and necessary that each nation should have a vote in the Assembly because that is the body where the representatives of the nations of the earth meet together for the purpose of discussing all matters that are of interest to the peoples of the earth, and the voice of the small should be heard equally with that of the great. Given a sufficient time for calm discussion and consideration all questions will be adjusted without resort to wars.

No powers are really vested in the Assembly but are vested wholly in the council, in which the United States has one vote and England one. The Assembly decides no controversy but the council decides all. The report or conclusion of the Assembly is merely advisory and then only in relation to disputes which the parties to the dispute shall submit to it and the action of the council must be unanimous, so that it is apparent from a careful examination of this particular covenant that there can be no menace to the United States or any other nation belonging to the league and that the critics of this particular covenant are guilty of palpable efforts to deceive, which naturally arouses our curiosity as to the motives of these opponents of the league. Is it responsive to a desire to promote the good of the people affected or is it for personal and political reasons? Are they playing the part of Cassius or Brutus or both; do they seek to injure the others or have they the courage to wield the rapier themselves? These conspirators actuated by like motives of jealousy of those who have achieved great results are far greater menace to mankind than were those who slew Caesar, and will find for themselves more dishonorable graves. The demagogues cry of "Thank God we are Americans" will appear any attempt to abridge our rights. "There must be no entangling alliances" are mere platitudes. Of course we are Americans and our country above all things, but where are those who cried so loudly, with an emphasis given by a great panic, that we must go to the assistance of France, England and Italy

otherwise Germany would destroy them and then destroy us. BERNARD POTTER, 326 Title Insurance Building.

"King of the Yaps." LOS ANGELES, Oct. 1.—[To the Editor of The Times:] All hail, the vanquished victor comes! The mighty Hiram J. approaches the Coast like King Canute to order back the tides of progress, and, like the old Dane, he'll have as much success. They say Johnny has quite a few followers; yet, so has Mohammed.

Hiram once lived in the reflected light of dear old Teddy; but now the light is gone. After all, he has a light of his own. It is found in deep-sea fish; cold, lifeless and of no use to the world. Or we might go to the other extreme and liken the gentleman to a volcano, spouting steam, mud and fire; destroying all it touched, yet building nothing but slag rock.

The Senator is much concerned about the league, we hear. After all, he shouldn't be, for it is said to be purely a moral obligation, merely a promise to help humanity up and out of the abyss of warfare and destruction. These things should never disturb dear H., any more than the north pole bothers a Mexican.

Gentlemen, I rise to nominate Mr. Johnson as King of the Island of Yap. Wouldn't that be a wonderful combination? I'll say it would. On the other hand, perhaps we should bear our cross and not try to shove it off on the Yaps.

EX-SOLDIER.

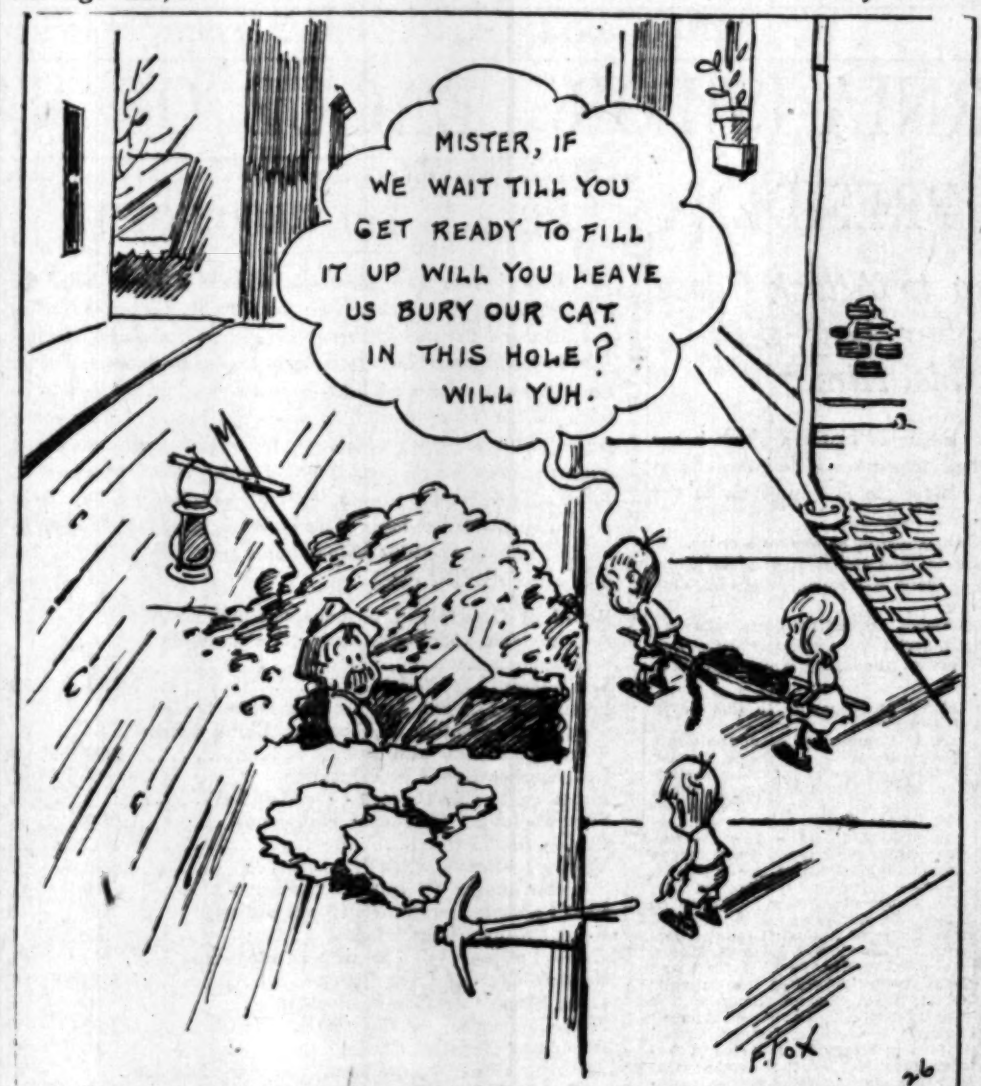

An Open Letter. LOS ANGELES, Oct. 2.—[To the Editor of The Times:] To Hiram Johnson, Sir: Did you in your speech at Boston say: "Our President sold out his country over there at the Peace Conference?" If so, will you kindly explain upon what grounds you base your statement and where did you get your facts? Some former friends would like to know.

Do you realize that thousands here in your own State, formerly your warm supporters, say, "If he keeps up that kind of talk we certainly shall not vote for him again for any office?"

STANLEY MASON, Formerly attorney-at-law in New York, a "black" Republican, and now a voter in California.

Ancient Wheezers. SAN DIEGO, Sept. 27.—[To the Editor of The Times:] Senator Johnson in his appeal to ignorance and prejudice at St. Louis trotted out several ancient wheezers calculated to delude the simple-minded. Among them was that old scarecrow that American diplomats are always hoodwinked by the British. In England they make the same complaint of their diplomats and history shows that they have some real cause to do so. In the Alaska boundary dispute, the Newfoundland fisheries, Venezuela controversy and others Eng-

land lostmost of her claims and distinctly got the worst of it. In fact, American diplomacy has always held its own everywhere. Mexico is the only nation that can get ahead of the United States.

Very truly, HAROLD SCOTT.

When He Stands. LOS ANGELES, Sept. 27.—[To the Editor of The Times:] I was

pleased to read your remarks about Hiram Johnson on the first sheet of this morning's paper. But regret that you did not mention the fact that he voted against the Espionage Act, which provided the only protection for government had against German radical propaganda and sedition during the war.

An examination of the names of the Congressmen who voted against this very necessary law will throw

some light on the character of the men who are now opposing the League of Nations. By a singular coincidence they are practically the same and we are forced to draw the conclusions. Mr. Johnson aspires to the Presidency and is endeavoring to round up the Pro-German, Bolshevik, Sinn Fein, and miscellaneous radicals of the population to support him. Let him be repudiated.

V. S. S.

ENEMIES BARKING AT WILSON'S HEELS

Huns, Bolsheviks, Sinn Feiners and Von Heers All Make a Noise.

LOS ANGELES, Sept. 25.—[To the Editor of The Times:] What's the use bothering any more about this League of Nations, now that Senator Frelinghuysen has joined forces with the Senator that don't represent California. It is reported that Representative Ramseyer of Iowa, is also opposed to the ratification of this league and expects to get the goods on Woodrow, by demanding an inventory of the valuables presented to the President, while "Over There."

No doubt he thinks that the President annexed some of the discarded Crown Jewels that were lying around in such abundance in the latter part of 1918. It's funny how people's minds wander in the direction that they themselves would take if they had the opportunity. The people of the United States as well as the rest of the world would have absolute faith in the honor and integrity of Woodrow Wilson, but they can never thoroughly appreciate our wonderful President, until they pause and consider the enemies he has made. He is the Lion of the Tribe of White Men and the proof is his enemies following after like the Jackal and the Hyena following the King of Beasts, always keeping a safe distance, but yelping and snapping at his heels, trying to pretend that they amount to something, but fooling no one but themselves. Never before have the sheep and the goats been so clearly defined; never before was it so easy to pick the true friends of civilization as now.

It would seem that almost every chronic kicker, pro-German, Bolshevik, Anarchist and some politicians, with a view to securing pro-German and Irish Sinn-Fein votes have denounced the League of Nations and would like to denounce our President. If they thought they could get away with it, but so far have only intimidated, like the Representative from Iowa, by asking for a list of the presents received from the foreign nations by the President, while "Over There."

The Representative's name is "Ramseyer." Von Bethmann Hollweg has not been quoted on this question, at least not in the local papers here, but the President of the Irish Republic and Victor Berger and some of the representatives of the Russian soviet muddle have unquali-

fiedly denounced this League of Nations, so again I say, What's the use bothering any more about this League of Nations, now that Senator Frelinghuysen has joined forces with the Senator that don't represent California. It is reported that Representative Ramseyer of Iowa, is also opposed to the ratification of this league and expects to get the goods on Woodrow, by demanding an inventory of the valuables presented to the President, while "Over There."

No doubt he thinks that the President annexed some of the discarded Crown Jewels that were lying around in such abundance in the latter part of 1918. It's funny how people's minds wander in the direction that they themselves would take if they had the opportunity. Never before have the sheep and the goats been so clearly defined; never before was it so easy to pick the true friends of civilization as now.

It would seem that almost every chronic kicker, pro-German, Bolshevik, Anarchist and some politicians, with a view to securing pro-German and Irish Sinn-Fein votes have denounced the League of Nations and would like to denounce our President. If they thought they could get away with it, but so far have only intimidated, like the Representative from Iowa, by asking for a list of the presents received from the foreign nations by the President, while "Over There."

The Representative's name is "Ramseyer." Von Bethmann Hollweg has not been quoted on this question, at least not in the local papers here, but the President of the Irish Republic and Victor Berger and some of the representatives of the Russian soviet muddle have unquali-

CHING'S GIVEN PRISON TERM.

Five Years and Big Fines on Narcotic Law Charge.

Judge Congratulates Jury; Says Justice is Done.

'Tis Busy Day for Herbalist, with Two Cases Pending.

Henry Ching, the Chinese herbalist, who has been in business at 936 South Broadway for some years, and is recognized in local police circles as one of the most persistent local violators of the Harrison narcotic act, was convicted of dealing in morphine, opium and heroin, on two counts of an indictment in United States District Judge Trippet's court, yesterday.

When the jury brought in a verdict of guilty, Judge Trippet congratulated the body, saying no mistake had been made, that Ching's familiar face had often been seen in the Federal court. Judge Trippet then proceeded to sentence Ching to two years and a fine of \$1000 on the first count of the indictment, and to three years and the payment of a fine of \$100 on the second count, the imprisonment to be in the Federal penitentiary at McNeil's Island. The sentences do not run concurrently.

It having developed that Ching had about \$10,000 in cash on deposit with local surety companies who had furnished previous bonds, Judge Trippet ordered Assistant United States Dist. Atty. Lawson to see to it that the fines be collected out of the fund.

Altogether, it was a busy day with Dr. Ching. He narrowly escaped the forfeiture of his bond of \$5000, by not appearing in court when the case was called. An immediate search for the prisoner was started. Warren Williams, who has represented Ching in many of his cases, stated that he had not been retained in this one, and asked to be excused. Walter J. Little, another attorney, said he had been hired by Ching to defend him, but had nothing to do with the action at bar.

While Judge Trippet was discussing the propriety of forfeiting the bond, Ching stuck his head in the door, and was at once grabbed by Deputy United States Marshal Moore.

"Are you ready for trial," inquired Judge Trippet.

"I would like to have several more days to get ready," said the crestfallen Celestial.

"You don't get a minute," said the court. "Mr. clerk, draw the jury, and Mr. Little, the court will appoint you to defend the accused."

The indictment charged that on April 14, 1918, Dr. Ching had been captured with a fine assortment of morphine, opium and heroin, at 421 California street.

There were but five witnesses on behalf of the government, and one for the prisoner, Ching himself. The case was begun at 10:30 a.m., and at 3 p.m. Ching had been given his five-year sentence behind the walls.

Dr. Ching had two suits in the Federal court, yesterday, the one

WORLD'S BASEBALL SERIES.

disposed of by the jury in Judge Trippet's department, and a preliminary hearing set before United States Commissioner Long, in which Ching was able to furnish a cash bond of \$10,000, some time ago. It was necessary to postpone the hearing before the Commissioner for a week, to give Ching an opportunity to make his defense in the court on the floor below. There are still two additional indictments pending against Ching, both charging violations of the Harrison narcotic law.

PETITION GRANTED.

Council Approves Vitrited Pipe for Normandie Avenue Sewer.

The City Council yesterday granted the petition of property owners that vitrited clay pipe be used for the sewer to be laid in Normandie avenue, between Maplewood avenue and Clinton street.

In response to inquiries made by Acet Improvement Association relative to the construction of sewers in the San Pedro street district, the City Engineer notified the Council that the ordinance of intention for sewers within the district lying between San Pedro street, South Park avenue, Simpson and Florence avenues, will be presented within a month, but that it will be probably eight or nine months before the sewers can be put into service.

STREET GRADING FOR SAWTELLE APPROVED.

The final ordinance for the improvement of Forty-fifth street, between Lima street and Compton avenue, and a portion of Compton avenue, was adopted by the City Council yesterday. Ordinances were also adopted changing and establishing the grade of certain streets in Sawtelle.

The City Engineer was instructed to confer with the Board of Supervisors to ascertain whether if the board will pay a portion of the cost of constructing the proposed cement ford across the Arroyo as a part of the project of improving San Pascual avenue and thus creating a short and scenic route between Los Angeles and Pasadena.

AGAINST SPECIAL FUND. Objections having been made by police judges that the lack of a special fund for the purpose of meeting the expense of serving warrants outside of the municipal boundaries hampers the business of these courts, the City Attorney yesterday notified the City Council that no special fund for such a purpose is necessary. He said that such expenses can be paid from the police department contractual fund.

The Magic Food

Milk is a necessity for children, a mental and physical food for adults. It should be the first food in importance in their diet and yours.

Dr. McCollum, the foremost food authority, says: "There is no other way that we may remain vigorous and healthful than by the generous use of milk."

Milk has the nutritive qualities which other foods lack, and you cannot obtain the same amount of nourishment in any other foods except at far greater cost.

Your health requires a liberal use of milk, butter, cheese and ice cream.

CINCINNATI REDS GET BREAKS AND CORRAL SECOND STRAIGHT VICTORY

THEEZER DELL
FOILS ANGELS.

Trims Tigers' Changes
for the Peasants.

Trimmed by Essick's
Fighters.

Must Win Three of
Four Remaining Games.

HARRY A. WILLIAMS.

THEEZER DELL bobbed up to foil the Sox yesterday, and the Tigers il-

lustrated their own chances for the

title by turning in a 2 to 2 win.

That pleased Essick's men par-

ticularly was that they trimmed Dell

who has the reputation of being

Killefer's best bet. They think that

Red now has any chance to stop them,

but Dell's endeavor to upset that line

was foiled this afternoon.

A "CINCINNATI" in

which, when the game was won

last night, the Sox were on

the verge of winning the

title, Dell had driven in two

runs, and the Sox were

forced to play a double

header, which they won

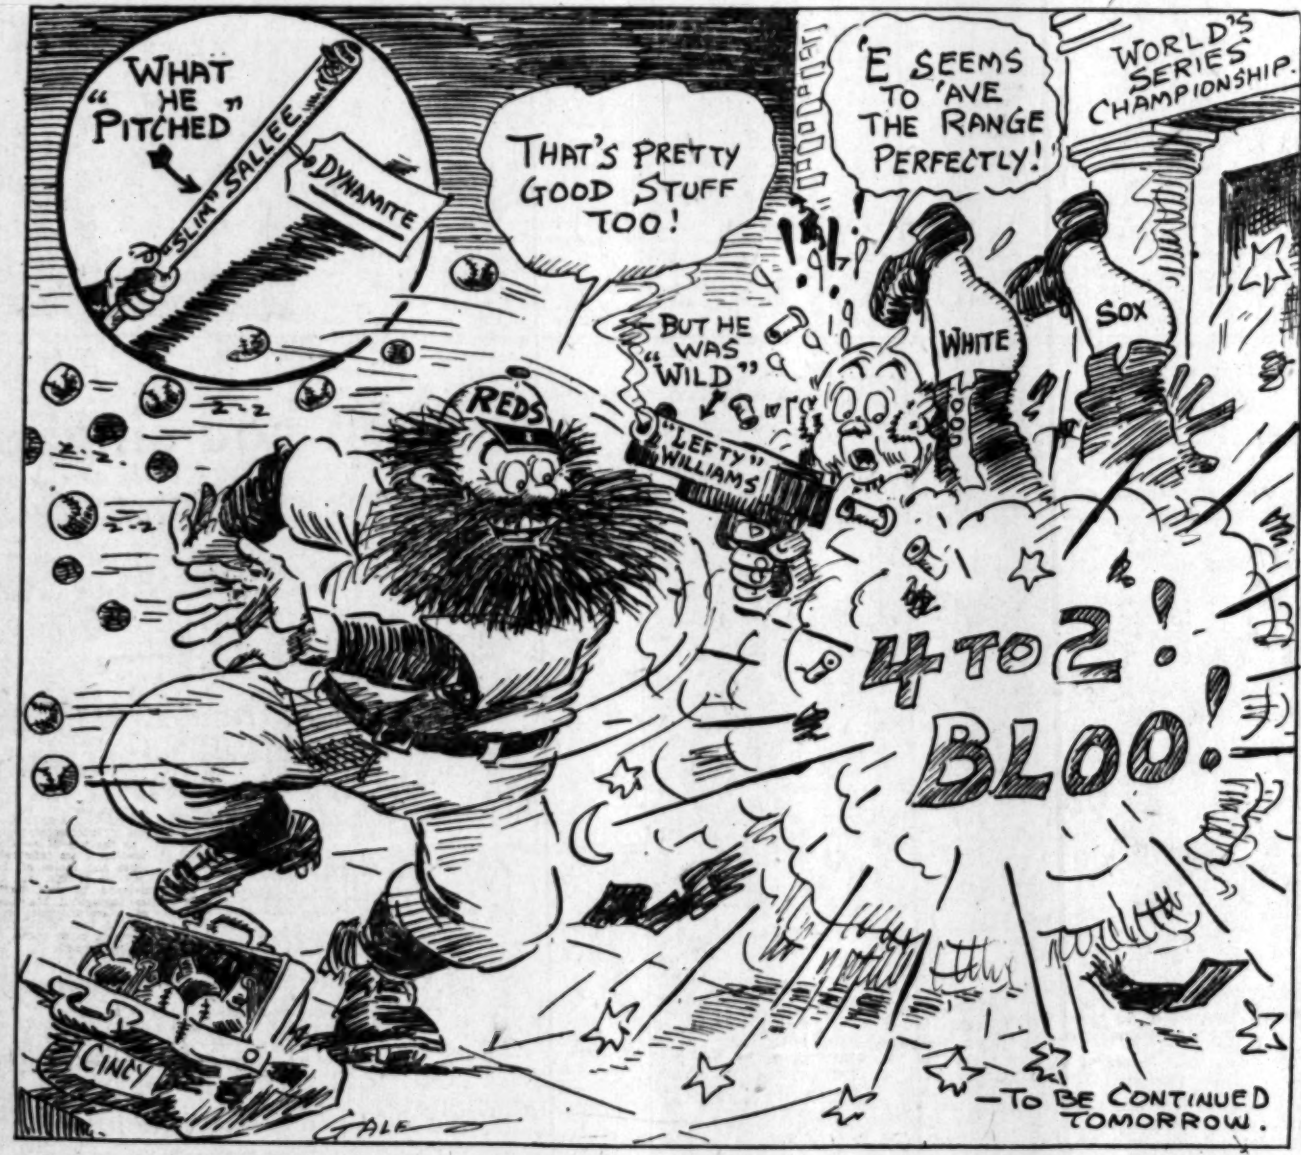

by a score of 2 to 1.

That was a big

blow to the Sox,

and Dell's

The Base-Ballshevik—No. 2 - - - - - By GALE.

REDS AGAIN DEFEAT SOX.

Stage Rally in Fourth Inning of Second Game, Scoring Three Runs.

(BY A. P. NIGHT WIRE.)

CINCINNATI, Oct. 2.—The Cincinnati Reds lightened their grasp on the series flag today by defeating the Chicago White Sox 4 to 2. As they also won the opener yesterday, they need but three more games to land the series.

Cincinnati has developed, in the brief period of the series, so far a habit of celebrating the fourth. There is nothing patriotic about it, for in this victory-mad town the "fourth" means an inning, not a holiday.

The game yesterday was safely stowed away in the fourth, and when that inning arrived today the fans roared a demand for an encore.

BOYS RESPONDED.

In a measure, the Cincinnati baten responded, but the person who really took the demand to himself, apparently, was Claude Williams, the Sox left-hander, who was in the mound. He passed three batsmen and three scored.

In the sixth he passed another runner and the latter scored, but the tally was not needed. All four Red runs were counted by players who had been passed to first.

HIT BALL HARD.

Chicago's two runs came in the seventh, the result of two hits and an error by Cincinnati. The visitors garnered ten hits, but they were scattered throughout the game. They hit the ball viciously at other times, but the Red fielders were there to receive them. Weaver, Sox third baseman, played in hard luck. He slammed the ball against the left-field barrier so hard that it bounded back twenty-five yards, and what ordinarily would have been a triple shrunk to a double.

Nor was this all that caused the Sox to regard the sixth as unlucky. For "Happy" Felch, after Jackson had fanned, gave the Sox a powerful wallop yet delivered in the series. It had "home run" written all over it, but Roush, by a magnificent sprint, captured it while running.

WORLD'S BASEBALL SERIES.

The world's championship baseball series between Cincinnati and Chicago will be continued, play by play, in front of The Times Building, Broadway at First street, and The Times' Branch Office, 619 South Spring street, every day throughout the series, commencing Wednesday, October 1.

CHICAGO started the fourth with an assault that greatly encouraged the Sox crowd. Weaver and Jackson singled, but Weaver was held at second by the fast work of Duncan in retrieving the ball from left field. Felch sacrificed and both runners moved up.

With men on second and third and only one out, the Chicagoans pulled hard for a run. Gandil grounded to Daubert, whose throw to the plate cut off Weaver. Jackson made third in the play and Gandil was safe at first and stole second. Roush waited for three balls and two strikes and then popped out feebly to Daubert. Sallee, the Red pitcher, was thus saved from the tightest hole of the game for him.

ROUSH SINGLED.

In the Red's half, Williams began his ascension. Rath walked and advanced on Daubert's sacrifice. Groh also received a passage and then Roush singled to center. Roush and Jackson placed Groh on third. Roush attempted to steal, but was pegged out by Schalk. Groh making the attempt to leave third. Duncan also waited for four balls and he and Groh rode home on Kopf's triple to the left-field fence. The second was ended for Chicago when Neale was thrown out, Eddie Collins to Gandil.

In the fifth an error by Roush and a single by Rariden placed Reds on the bases, but Daubert, Groh and Sallee new out. Roush in the sixth received his second pass, and he completed the circuit on Duncan's sacrifice and Neale's single. This ended the Red scoring.

With one out in the seventh, Chicago made a new bid for the game, and with the assistance of certain fielding eccentricities of their opponents got two runners across the plate. Gandil, the first man up, was out at first, but Roush singled to

WILLIAMS GOES WILD AND LOSES.

Reds Turn Highwaymen and Grab Impossible Drives Out of Air; White Sox Have Many Chances to Break up Game, but Sallee's Support Holds All the Way.

BY I. E. SANBORN.
[EXCLUSIVE DISPATCH.]

CINCINNATI (Ohio) Oct. 2.—Almost criminal wild pitching by Lefty Williams and highway robbery that was ultra-sensational by the Reds, beat Chicago's White Sox today in the second game of the world's series by a score of 4 to 2 and left South Side rooters nothing but hope and their underwear.

Although the Gleasons outbatted their antagonists more than two to one, they could not tie up the series because a flock of bases on balls gave the Reds three runs in the fourth inning and all but one of the Reds turned highwaymen. The exception was Greasy Neale, the pugilat, who donated the two runs which kept the visitors from being shut out.

The Sox made ten hits that went safe and as many more that didn't, while the Reds were copping a measly quartet of bingles off Williams, but the locals might have done more swatting if they could have reached the ball. Today they could have won with toothpicks for bats, for they did not have to hit except when a pass holder got within scoring distance. Then they did.

A three-base hit by Kopf was the determining factor in the third inning, after the Reds had extracted three free tickets from the generous White Sox southpaw. Slim Sallee owes his triumph to the wonderful support given him. Few pitchers have been hit harder in a world's series than he was and the White Sox had chances to break up the game in every inning except one. In every round that mattered they were balked by startling plays performed by the Reds. First, it was by Kopf, who stabbed a Weaver liner for a double play in the opening inning. Then it was Duncan in the second round, and so on down the line of Sallee's defenders.

But the play that decided the game was a three-bagger, was a miraculous catch by Roush in the sixth chapter. Hap Felch hit a ball several miles over Cincinnati's field, and it would have been good for a home run if he had hit it in any other direction on the map of the geography of Redland Park.

Here it was possible for Roush to tear back to within a few feet of Western avenue and pick that pill out of the sun over his shoulder while running at top speed. It was the catch of a lifetime, and it quashed one of the most likely looking rallies the White Sox made. Weaver was on third by way of a "double, and a balk, with two gone and this happened in the seventh. Two runs it would have meant if that ball had gone safe, added to the two the Gleasons garnered in the seventh, would have been enough to stave off defeat until extra innings, at least.

FELCH SHINES.

Felch was the victim of another remarkable play in the eighth when he lined one hotly toward left field, only to have Groh reach up and knock it down right at his feet, where he could pick it up and retire Hap with a runner waiting to score. Daubert and Roush made a double base hit, although Jake's stop was converted into an error by Sallee's slowness in covering first base. Rath stopped a ninth-inning rally that might have produced results by going back of second and nailing a base hit from Roush for an easy double play.

While luck of this sort cut a tremendous figure in the day's result, and probably in the ultimate location of the world's pennant, there is no denying the Reds the credit of playing a wonderful game behind their veteran pitcher, who with the White Sox were slugging with all the confidence in the world, and with the desperate determination bred of the knowledge that at least a thousand iron men depended on their efforts.

FAULTLESS BALL.

The White Sox performed practically faultless ball in the field behind Williams, and gave him everything a pitcher could ask for in the way of support, but they could not get the ball over the plate for him, neither could they coax him to do it for himself at times, although they tried hard enough. The only errors charged to the Gleasons was an excusable one by Roush, which cut no figure. He raced in for a low fly ball, but he failed to catch it, and the ball shot through him on the bound.

LOOKED BETTER.

The White Sox looked much better today than yesterday because they displayed the fighting spirit again and were on their toes instead of being lulled by the ease with which they failed to hit in the pinches after a couple of the many times, and had chances to score in numerous other times they peeled off wallpops that listened like runs, but the Reds stole the hits.

The Sox weakness today was on the slab, where Williams showed lack of control in nearly every in-

ning. The few hits the Reds were able to get off him usually scored. But Groh did not leave third on Eddie Lett the ball go and Roush scooped it off the earth at second base and stabbed the astonished Roush several feet from the base. That saved a tally, for Duncan walked on the next pitch and Kopf caught one in the groove, for a three-base drive over Felch's head almost to the fence, scoring Groh and Duncan.

The only other tally for the Reds was also a gift by Williams. Roush was walked to start the sixth, went to throw Groh out at the plate if necessary.

WHITE SOX MANAGER PONDERES.

(BY A. P. NIGHT WIRE.)

CINCINNATI, Oct. 2.—With the Reds victorious in the first two games of the series, the demand for tickets to the third contest, to be played in Cincinnati next Monday, was greater than ever. The scalpers decided to hold their tickets until Monday, believing they would be able to get enormous prices.

"Wait until we get 'em on our home grounds," was the cry from the White Sox camp. This was taken to mean that the men of Gleason intend to give the Reds a beating.

The crowd did not begin to fill the stands as early as on Wednesday. Holders of reserved seats tickets were much slower in arriving. There was a steady stream entering the stands when play began.

Manager Gleason of the Sox, and

Moran, the "miracle man" of the Reds, batted boulders to the infield during practice. Moran took up his station to coach at the first base line, but Gleason was not much in evidence on the coaching line this afternoon. He sat on the bench and wondered.

"The Reds are the most formidable team I've ever seen," said Federal Judge Landis of Chicago after the game. He was the guest of Judge Woodmansee of Cincinnati.

Joe Jackson, the White Sox slugger, got his first hit of the series in the second inning, when his short high fly to center fell safe, the drive going for two bases.

Eddie Roush, the Reds' star out-

WATCHING FIRE GIRL FALLS FROM WINDOW

Rose Talamante, 17 years old, living at the Francis Willard Hotel, North Broadway, narrowly escaped death last night when she fell from a fourth-story window while leaning out watching the apparatus pass. The girl landed on a wide cornice on the second floor and clinging to the open window was rescued by Ambulance Driver Bruce. At the Receiving Hospital it was found she had sustained a fracture of the left ankle and internal injuries which, according to Dr. Goodrich, will not prove fatal.

DAILY TRADE TALK.

Millions of Mortgages Paid Off; New Branch Bank; Stocks; Bonds.

BY CHAPMAN HALL.

In the past six years approximately \$17,000,000 worth of mortgages have been satisfied. That is, those familiar with the records say that the total volume of recorded instruments of this character is that much less than it was half a dozen years ago. A large percentage of this paying-off movement has been within the past two years.

These figures are cited merely as further proof that the era of prosperity about which we hear is really based upon something far more substantial than the stuff of dream manufacture. This large sum has found its way into other channels of investment. A good deal of it went into Liberty Bonds, while corporate and public utility investments shared in the distribution, and a fair percentage was devoted to more risky forms of speculation.

When an individual is in funds the first thing he is apt to do is to start the accumulation from the roof-top. This is true, speaking of the average wage-earner, not the financier who figures on making his assets earn him more return in the open market than it costs him to carry an indebtedness on real estate. Because of the war babies, and afterwards because of the general prosperous condition of the country at large, a greater proportion of miscellaneous investments have been successful, and investors both large and small have come to look with more or less disdain upon the conservative but certain return from the open market.

United States Exports for year ended August 31 were \$1,416,000,000; imports \$2,234,000,000, making a total foreign commerce of \$3,650,000,000, with balance in favor of United States \$1,834,000,000, or \$1,000,000,000 larger than a year ago.

Average price of twenty industrial 111.12, off .02; 20 rails \$1.97, up 1.15.

The Bond Market.

The bond market continues to occupy a satisfactory position in the eyes of both dealers and investors. This is especially true of municipals which are particularly strong. N. R. Tucker, a partner in the firm of Bond & Goodwin, whose headquarters are in San Francisco, has a decidedly optimistic outlook upon the financial future. In his opinion the critical period of the headwind is over and there is nothing worse to be feared than that which has already happened. On the contrary, he believes that the downward trend of the market has been a greater volume of well-considered and profitable business than any that has gone before. It is Mr. Tucker's opinion that the Coast States are in a position to achieve a great deal of success in the future, and he is particularly confident of the success of the California bond market.

Bond From Georgia.

The National City Company, in conjunction with E. H. Rollins and other eastern distributors, is offering \$2,500,000 of Georgia bonds, 4 1/2% per cent, maturing serially 1925 to 1949 in cash. These bonds are on a four and three-quarters basis. The South Dakota rural credits offered a few days ago are having a good sale. The bonds are growing in popularity on the Coast.

Delegates Go East.

Several of the Los Angeles delegates to the American Bankers' Association convention held this week in St. Louis are planning to continue their trip to New York and other eastern cities.

The Stock Market.

There was little change in local market conditions yesterday. Mines were somewhat more active, and oil continued strong and in fair demand. Union was active in small lots around 17 1/2, a few transactions being recorded at half a point above that figure. Associated was steady and active at 24 1/2. American Crude sold up to 33. A few shares of Mascoit changed hands at 2.25. Union was active in small lots around 17 1/2, a few transactions being recorded at half a point above that figure. Associated was steady and active at 24 1/2. American Crude sold up to 33. A few shares of Mascoit changed hands at 2.25.

General Walnut Crop.

The California Walnut Growers' Association, which has been in existence for 18 years, is now in the midst of its annual meeting. The price has been fixed at 54 cents per pound for hulled nuts, 51 cents for No. 1, and 48 cents for No. 2. In spite of an unusually dry year the quality of the nuts is excellent.

25,000,000 Duquesne Light Company

(Pittsburgh) First Mortgage and Collateral Trust, 30-Year 6% Bonds

Dated July 1, 1919. Due July 1, 1949. Interest dates January 1st and July 1st. Callable at 105 and interest on any interest date. Bankers Trust Company, New York, Trustee. Interest payable without deduction for normal Federal Income Tax up to 2%.

Duquesne Light Company owns and controls properties conducting the entire central station electric light and power business in the City of Pittsburgh and throughout the major portions of Allegheny and Beaver Counties, Pennsylvania.

Properties operated by the Duquesne Light Company and its subsidiaries form a single interconnected system which serves a total population estimated to exceed 1,100,000 located in the heart of Pittsburgh district.

Franchises with minor exceptions are in the opinion of counsel unlimited in time or for 999-year periods. Bonds are secured by first mortgages on all property owned in fee, a first lien on leasehold rights and in addition by deposit of virtually all the stock of the company's subsidiaries.

Property owned in fee will include the new Cheasaw Power Plant to be constructed from the proceeds of these bonds. This plant will have an initial installed capacity of 80,000 kilowatts, costing about \$11,000,000.

New Cheasaw plant, together with Brunst Island plant, which has a present capacity of 130,000 kilowatts, represent alone an investment largely in assets of this total issue of bonds.

Bonds are followed by \$5,410,000 7% preferred stock, and \$18,590,000 6% dividend paying common stock. The equity in property over bonded indebtedness is in excess of \$31,000,000 as represented by present market value of the company's preferred and common stocks. This should show a normal increase when the new plant is completed. The total replacement value of property which these bonds represent, together with properties on which they are a collateral lien, is in excess of \$50,000,000 and they produce 16% of the total net earnings of the Duquesne Light Company's system. This is without giving effect to the new plant which will cost in excess of \$11,000,000.

Net earnings for the year ended April 30, 1919, were 2.81 times interest charge on bonded debt, including this issue. We recommend these bonds for investment. Price 100 and Interest to Yield 6%.

\$2,500,000 Public Service Company of Northern Illinois

Three Year 6% Collateral Gold Notes, Series "C"

Dated September 1, 1919. Due September 1, 1922. Interest payable semi-annually, March 1 and September 1, in Chicago. Coupon Notes, negotiable as to principal, in denominations of \$1000, \$500 and \$100. Redeemable, as a whole or in part, at any time upon thirty days' published notice, at 100% and accrued interest if redeemed before March 1, 1922, and at 100 and accrued interest on or after that date.

Interest is payable without deduction for Federal Income Taxes now or hereafter deductible at the source, not in excess of 2%.

The issuance of these notes has been authorized by the Public Utilities Commission of Illinois.

The Public Service Company of Northern Illinois operates in fifteen counties in the northeastern part of the State of Illinois, having a combined population, according to the 1910 Census, of 759,555, excluding the City of Chicago. The Company supplies electric light and power, gas, water and heat. Customers on December 31, 1918, numbered 161,533, an increase of 30.16% in the four years, 1915 to 1918, inclusive. The territory served surrounds the City of Chicago, and includes not only the entire suburban districts tributary to Chicago, but also one of the best manufacturing sections in the United States. On account of its nearness to a large central market, this district is an excellent market for light and power.

Security

The notes are a direct obligation of the Public Service Company of Northern Illinois and are collateral secured by pledge of \$133.13 par value of the Company's First and Refunding Mortgage 5% Gold Bonds for each \$100 par value of notes issued, the bonds thus being pledged at 75. Additional Notes may be issued only upon pledge of said bonds in like ratio.

These notes, being a lien through pledge of First and Refunding Bonds, rank ahead of \$2,997,700 Six Per Cent. Debentures, as well as \$7,672,000 Preferred Stock paying 6% dividends, and practically \$12,075,000 Common Stock paying 7% dividends. These junior securities, at present market prices, indicate an equity of over \$20,000,000 behind the Company's First and Refunding Bonds, a portion of which is pledged to secure these Notes.

Earnings

The following figures indicate the growth of the Company's business in the last four years.

Years Ended	Dec. 31, 1918	Dec. 31, 1917	Dec. 31, 1916	Dec. 31, 1915
Gross Earnings	\$9,218,884	\$8,797,765	\$7,783,157	\$6,903,228
Operating Expenses & Taxes	5,888,954	5,809,334	4,508,483	3,749,370
Net Earnings	\$3,632,930	\$3,488,431	\$3,274,674	\$3,153,858
Interest Charges	\$1,784,797	\$1,614,867	\$1,497,818	\$1,492,280

*Includes interest on floating debt.

Present annual interest on the entire outstanding funded debt of the Company, including these notes, requires \$1,946,965.

WE RECOMMEND THESE NOTES FOR INVESTMENT.

WALNUT GROWERS ARE PRAISED FOR FAIRNESS

ASSOCIATION'S PRICES FREE FROM PROFITTEERING AND CROPS IS LARGE

(EXCLUSIVE DISPATCH)

SAN FRANCISCO, Oct. 2.—The California walnut grower is sitting on the golden chair this year. He has worked to attain his enviable position and the trade which has paid a little more for the nuts than last year is neither begrudging him his rich harvest nor hurling the accusation of profiteering at his head.

San Francisco's largest walnut handling concerns express satisfaction at the opening prices just announced by the California Walnut Growers' Association. In fact a few jobbers went so far as to state that the figures are just a little under levels they had expected.

Taking into consideration the greatly increased cost of production and the fact that the new crop is coming on the barest of markets, the old crop having cleaned up some time ago, the current prices compare favorably with opening prices of 1918, which were 31 1/2 cents for binned, 28 cents for No. 1 and 15 cents for No. 2. The new prices of the Walnut Growers' Association are below those at which the independent producers are selling, according to local authorities.

The 1919 crop is a banner one in the history of the industry in California. Estimates place this year's yield at 23,000 tons, or nearly 50,000,000 pounds, as against 16,000 tons grown last year. The entire record-breaking crop has already been sold, with about 15 per cent of the orders made at firm opening prices. Producers consider 1917 a good year, but this season's production is 40 per cent greater.

GERMANS' FINANCIAL HOPE IS IN AMERICA

(BY CABLE AND ASSOCIATED PRESS)

BERLIN (Wednesday) Oct. 1.—Mathias Erbsberger, Minister of Finance, told the National Assembly this afternoon the only country capable of financing a big loan was the United States and negotiations at this source were impossible until the treaty of peace was signed.

Erbsberger said the government was exerting every influence in all efforts to halt the downward tendency of the mark and announced the appropriation of 3,500,000,000 marks for the purpose of keeping down food prices.

FARGO BANK INSOLVENT

(BY A. P. NIGHT WIRE)

FARGO (N. D.) Oct. 2.—The Scandinavian American Bank of Fargo, with liabilities aggregating \$1,448,000, was today declared insolvent by the banking board of North Dakota. It was ordered closed, placed in the hands of a temporary receiver.

THE HIDE MARKET: MILWAUKEE PRICES

MARSHUTZ OPTICAL CO.
FIT THE EYES

Outdoor Glasses
When you go motoring or golfing—in all outdoor activities your eyes need protection from the menacing glare of California sunlight.

Ordinary colored glasses shut out the very light rays that are beneficial to the eyes and are therefore not desirable.

The Famous "Sir William Crookes" Lenses shut out only the menacing rays. They are so delicately tinted that they do not change natural colors—nor are they over conspicuous. We can grind "Sir William Crookes" glasses to your prescription.

Make an appointment.

PROVE NYLAND WAS MURDERER.

Bandit-Suicide Identified as Canadian Desperado.

Killed Two Men in Vancouver and Fought Police.

Finger-Print Record Clears up Crime Mystery.

The mystery surrounding the identity of Helmar F. Nyland, burglar and bandit, who killed himself early last Sunday morning, following a gun battle with four police officers, was cleared up late yesterday afternoon, when Nyland was identified by fingerprint and pictures as George Lehtinen, alias George Lehtu, alias George Leaf, a Finnlander wanted by the police of Vancouver, B. C. Lehtinen, according to Chief Constable William McKee of that city, escaped from there following a double murder, several highway robberies and a pistol duel with two police officers.

Following the suicide of Nyland last Sunday his fingerprints and photographs, which were taken by Detective Sergeant James Cline of the local police identification bureau, were sent to all police departments of the West and Canada. Sheriff Cline yesterday notified the police that information establishing Nyland as Lehtinen had been received. The final identification came from the California State bureau of criminal identification at Sacramento.

KILLS TWO MEN.
According to the information received yesterday by Capt. Charles Moffatt of the police detective bureau, Lehtinen, alias Nyland, held up a card frame in Vancouver on the night of September 7, 1918. He shot and killed two men who resisted and then fled with several hundred dollars in cash. On the night of September 28, 1918, Lehtinen engaged in a gun fight with two officers between Hammond and Whittier, in British Columbia. The bandit again escaped after wounding the officers. Later it was discovered that he had been seriously wounded in the exchange of shots.

After the shooting, the British Columbia police did not hear of Lehtinen again until his fingerprints were received there marked Helmar Nyland. From a diary found in the bandit's pocket following his death, the local police learned that he had operated in the Middle West, and on the Coast, for about a year. He was shot in Texas and again while escaping following a robbery in Long Beach. In each case he got away without his identity becoming known.

MAY BE PAID.
Lehtinen, alias Nyland, was cornered early Sunday morning near Seventh and Olive streets by Police Officers Barnes, Parsons, Lane and Sert. Cahill. After having been wounded three times, Lehtinen killed himself by firing a shot through his brain. The gun-light came when Lehtinen was discovered attempting to burglarize a hotel near Seventh and Olive streets.

Early yesterday morning the police took into custody John Boyes, alias "Curly," believed by them to have worked with Lehtinen. Boyes was taken by the police squad while raiding a house on South Flower street. According to Sgt. Gifford, Lehtinen was a drug peddler. He will be investigated by the police today.

IF YOU HAVE WHISKY KEEP IT AT HOME.
LAW IS VIOLATED IF LIQUOR IS DRUNK IN CAFES, CITY PROSECUTOR RULES.

At the last meeting of the Police Commission the Chief of Police called attention to reports filed by his officers that persons of various ages are permitted to drink whisky, brought in by themselves, in these cafes, the proprietors being under the impression that this is legally permissible if the patrons are not served with anything to facilitate such drinking. The Police Commission asked the advice of the City Prosecutor on the subject, and yesterday he filed with Secretary McKee of the Police Commission the following statement:

"In response to your communication of September 30, requesting an opinion as to the consumption by patrons of whisky, high percentage wine, etc., in restaurants, I beg to advise as follows:

"Section 4 of Ordinance No. 27,495 (New Series) provides as follows: 'It shall be unlawful for the proprietor or manager of any place of public resort, club or association where any alcoholic liquor may not be legally sold to permit therein the drinking of any such liquor.'

"Under this section no alcoholic liquor of any kind can be consumed in any restaurant, etc., without a license."

Remarkable Accident in Downtown Hotel.

Lobby Floor of Westminster Hotel After Boiler Explosion.

HOTEL BOILER EXPLODES.

Part of Westminster Lobby's Floor is Wrecked; No One Hurt.

Damage estimated at \$15,000 was caused to the Westminster Hotel, Fourth and Main streets, last night, and the lives of many persons endangered when a 2000-gallon hot water tank in the basement exploded, tearing a large hole in the floor at the rear of the lobby and sending chairs and heavy potted plants flying in every direction. That no one was hurt is considered miraculous and was due to the fact that none of the guests or employees were in that part of the hotel at the time.

Investigation by Fire Chief Scott and Detective Sergeant James Bean showed that the explosion was caused by the circulation system of the hot water boiler becoming jammed by a piece of wood. The boiler was located in the basement of the hotel, and the explosion started to run for the Fourth street entrance and remained outside until it was certain that the Van Nuys had not been injured. The elevator of the Van Nuys was descending to the first floor and the operator stated that the cage was shaken considerably and he was nearly knocked to the floor of the car. R. Ruhlberg, hotel clerk at the Van Nuys, was considerably shaken by the explosion.

Uninjured persons not having a liquor license permit without a violation of this section.

"Further, no alcoholic liquors, excepting vinous and malt alcoholic liquors containing not more than 14 per cent. by volume of alcohol, can be consumed in any restaurant operating under a liquor license permit."

"Note: This opinion is based on existing Federal liquor laws. Under existing Federal legislation and regulation consumption of alcoholic liquor is confined to malt alcoholic liquor containing not more than 2.75 per cent. by volume of alcohol."

MAN WHO SHOT MATE'S FRIEND WINS DECREE.

HENRY NIER, WHO FOUR TIMES WOUNDED HARVEY WATKINS, GETS DIVORCE.

The husband, the wife and the man the husband shot and wounded were the triangle in the Nier divorce suit tried by Judge Ciarl yesterday. Mrs. Minnie Nier brought the action, charging cruelty. Henry Nier asked for a divorce on a cross-complaint, naming Harvey R. Watkins.

The shooting occurred at 847 South San Pedro street and was related both by Mr. Nier and by Mr. Watkins. The former testified he opened fire when he found his wife in the head. I grabbed him and hustled him into my room. Nier's room, throwing him on the couch. He fired three more bullets which entered under my arm, coming out of my back. I was in the hospital three weeks," he testified.

In his cross-complaint, Mr. Nier charged that his minor son, George, 10 years of age, was instructed by Mr. Watkins to shoot at his wife. Mr. Nier was granted the decree.

NEW HOME FOR EAGLES.
Expect to Purchase Concordia Club House for \$75,000.

Plans for the purchase of the Concordia Club House, on Sixteenth street, 140 feet west of Figueroa street, are about completed by the local lodge, Fraternal Order of Eagles, it was announced yesterday. A deposit has been made and it is expected the purchase will be completed within a few days. The consideration is said to be \$75,000.

The Eagles propose to redecorate the rooms and remodel them to some extent, and expect to be in their new quarters by Christmas Day.

Hamburger

ESTABLISHED 1881

—When the Young Man Graduates from the Boys' Dept. and Starts Buying His Clothes in Hamburger's Men's Store

—A proud day is this when the young chap walks into Dad's store to choose the first long-trouser suit—a day always to be remembered.

Wilshire Junior Clothes

—That is what he is going to select—a "Wilshire Junior"—a suit with all the dash and distinction of his father's, yet with every point of style and quality he has learned to expect when choosing his suits at Hamburger's.

—Already he is keenly realizing how much a smart appearance counts and is going to make sure of it by wearing "Wilshire Junior" clothes.—\$25.00 to \$35.00.

Shoes for Young Men

—In styles that bespeak the good taste of those fellows who wear them.

—At Hamburger's—an especially good looking model in mahogany tan or cherry calf—priced 4.00 to 8.00.

Wilshire Jr. Clothes for the Younger Brother

—They've solved the problem for many a mother when "young hopeful" is beginning to be particular about his clothes.

—Let us outfit your boy with a "Wilshire Junior" and you. Knicker 8.95 to 25.00.

Boys' Caps, 1.00

—A most unusual selection for the boy to choose his own from.

—Plaid top, with strap of the one-piece top style, canvas sole. Good-looking pattern, dark shades, sizes 3-8 to 1-10.

Boys' Khaki Blouses, sizes 7 to 14.

Khaki Shirts for Boys, 12½ to 14.

Boys' Black or Tan Buckle Belts.

New Silk Neckwear for Boys.

Boys' Heavy Corduroy Knickers.

(Hamburger's Boys' Store—Main Floor—Today)
